

Safeguarding and Promoting Children's Welfare Policy

This policy was reviewed in: **October 2025**

This policy is due to be reviewed in: **October 2026**

This policy applies to the whole school including EYFS

Summary of Changes to the Policy – October 2025:

Pages 19-20 – additions made to the paragraphs outlining online risks, including use of mobile technology and filtering and monitoring systems; link included to DfE guidance on Generative AI

Page 20 – 'Sending nude and semi-nude images' replaces 'Sexting'; guidance and links updated.

Page 24 – 'Radicalisation' section renamed as 'Prevent'

Page 32 – sections on 'Looked After Children' and 'Homelessness' moved to this page

Page 33 – section on 'Sending nude or semi-nude images' removed from this section

Page 40 – section on 'Alternative Provision' added

Appendix 5 removed as we now refer to 'When to Call the Police: Guidance for Schools and Colleges'

Annex A removed as it is a copy of Annex B of 'Keeping Children Safe in Education'

Definitions

Safeguarding and promoting the welfare of children is defined for the purpose of this policy as:

- Providing help and support to meet the needs of children as soon as problems emerge
- Protecting children from maltreatment, whether that is in or outside the family home, including online
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Promoting the upbringing of children with their birth parents, or otherwise their family network through a kinship care arrangement, whenever possible and where this is in the best interests of the children
- Taking action to enable all children to have the best outcomes in line with outcomes set out in the Children's Social Care National Framework.

Child protection is part of safeguarding and promoting the welfare of children and is defined for the purpose of this guidance as activity that is undertaken to protect specific children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online. (*Working Together December 2023*)

Abuse is a form of maltreatment of a child and may involve inflicting harm or failing to act to prevent harm. Further information regarding the categories of abuse can be found in the appendix to this document.

Children includes everyone under the age of 18.

The following three **safeguarding partners** are identified in Keeping Children Safe in Education (and defined in the Children Act 2004, as amended by chapter 2 of the Children and Social Work Act 2017). They will make arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs:

- The local authority (LA - Buckinghamshire)
- A clinical commissioning group for an area within the LA
- The chief officer of police for a police area in the LA area

Victim is a widely understood and recognised term, but we understand that not everyone who has been subjected to abuse considers themselves a victim or would want to be described that way. When managing an incident, we will be prepared to use any term that the child involved feels most comfortable with.

Alleged perpetrator(s) and **perpetrator(s)** are widely used and recognised terms. However, we will think carefully about what terminology we use (especially in front of children) as, in some cases, abusive behaviour can be harmful to the perpetrator too. We will decide what's appropriate and which terms to use on a case-by-case basis.

This policy should be read in conjunction with the following policies and other policies you feel it would be useful to refer to:

- Acceptable Use of ICT
- Anti-bullying
- Attendance
- Code of Conduct for Staff
- Complaints
- Counselling
- Data protection policies
- Equality, Diversity & Inclusion
- E-safety (including use of mobile/electronic devices)
- First Aid & Health Care
- Health & Safety Manual (including managing children with medical needs)

- Information & Records Retention
- Low Level Concerns
- Mental Health
- Missing Child
- Photography
- Prevent Action Plan
- PSHE (to include RE & RSE)
- Relationships & Sex Education
- Rewards, Behaviour & Sanctions (including use of reasonable force)
- Safer Recruitment
- SEN/Inclusion
- Student Mental Health
- Visitors
- Whistleblowing

Introduction

At Pipers Corner School we believe a child-centred approach is fundamental to safeguarding and promoting the welfare of every student. A child-centred approach means we strive always to keep the child in focus when making decisions about their lives and working together with them, their families as well as partner agencies. All staff are expected to be vigilant to the needs of our students.

This policy is based on the Department for Education's statutory guidance [Keeping Children Safe in Education \(2025\)](#) and [Working together to safeguard children 2023: statutory guidance \(updated June 2025\)](#), and the [Governance Handbook](#). We comply with this guidance and the arrangements agreed and published by our 3 local safeguarding partners.

Additionally, this policy has been developed in accordance with:

- Part 3 of the schedule to the [Education \(Independent School Standards\) Regulations 2014](#), which places a duty on academies and independent schools to safeguard and promote the welfare of pupils at the school
- Information Sharing Guidance for Safeguarding Practitioners [Information Sharing Guidance](#) - DfE May 2024
- [The Children Act 1989](#) (and [2004 amendment](#)), which provides a framework for the care and protection of children
- Children Missing Education; Statutory Guidance for Local Authorities – August 2024 [Children missing education](#)
- What to do if you're worried a child is being abused – March 2015 [What to do if you are worried a child is being abused](#)
- Section 5B(11) of the Female Genital Mutilation Act 2003, as inserted by section 74 of the [Serious Crime Act 2015](#), which places a statutory duty on teachers to report to the police where they discover that female genital mutilation (FGM) appears to have been carried out on a girl under 18
- [Statutory guidance on FGM](#), which sets out responsibilities with regards to safeguarding and supporting girls affected by FGM
- [The Rehabilitation of Offenders Act 1974](#), which outlines when people with criminal convictions can work with children
- Schedule 4 of the [Safeguarding Vulnerable Groups Act 2006](#), which defines what 'regulated activity' is in relation to children
- Revised Prevent duty guidance: for England and Wales (December 2023) which explains schools' duties under the Counter-Terrorism and Security Act 2015 with respect to protecting people from the risk of radicalisation and extremism
- [The Human Rights Act 1998](#), which explains that being subjected to harassment, violence and/or abuse, including that of a sexual nature, may breach any or all of the rights which apply to individuals under the [European Convention on Human Rights](#) (ECHR)

- The Equality Act 2010, which makes it unlawful to discriminate against people regarding particular protected characteristics (including disability, sex, sexual orientation, gender reassignment and race). This means our governors and headteacher should carefully consider how they are supporting their pupils with regard to these characteristics. The Act allows our school to take positive action to deal with particular disadvantages affecting pupils (where we can show it's proportionate). This includes making reasonable adjustments for disabled pupils. For example, it could include taking positive action to support girls where there's evidence that they're being disproportionately subjected to sexual violence or harassment
- The Public Sector Equality Duty (PSED), which explains that we must have due regard to eliminating unlawful discrimination, harassment and victimisation. The PSED helps us to focus on key issues of concern and how to improve pupil outcomes. Some pupils may be more at risk of harm from issues such as sexual violence; homophobic, biphobic or transphobic bullying; or racial discrimination

This policy also complies with our funding agreement and articles of association.

We believe clear governance and leadership is central to imbedding a safeguarding culture. The Governing Body takes seriously its responsibility under section 175 for independent schools of the Education Act 2002 to safeguard and promote the welfare of children, and to work together with other agencies to ensure adequate arrangements are in place within our school to identify, assess and support those children who are suffering harm or whose welfare may be in question. In this context "safeguarding" (as defined in the Joint Inspector's Safeguarding report) is taken to mean "All agencies working with children, young people and their families take all reasonable measures to ensure that the risks of harm to children's welfare are minimised" and "where there are concerns about children and young people's welfare, all agencies take all appropriate actions to address those concerns, working to agreed local policies and procedures in full partnership with other local agencies".

Governors will ensure all staff at the school have read and understood their responsibilities pertaining to Part One of Keeping Children Safe in Education September 2025 and have an auditable system in place to evidence this. In addition, all staff are required to read and adhere to the Staff Code of Conduct which governs behaviours expected of them as well as having an understanding of the Rewards, Behaviour and Sanctions Policy for children and our Attendance Policy which covers Children Missing in Education which are available from the School Office. They are also expected to have read and understood the Low-Level Concerns Policy.

We recognise all staff (all staff means **all** adult staff on-site, including temporary, supply and ancillary staff, and volunteers working with children) and Governors have a full and active part to play in protecting our students from harm and actively promoting their welfare and that the child's welfare is our paramount concern. The School has a duty to act in the best interests of the child and to take action to enable all children to have the best outcomes.

All staff believe our school should provide a safe, caring, positive and stimulating environment that promotes the social, physical and moral development of the individual child.

The School recognises that as well as threats to the welfare of children from within their families, children may be vulnerable to abuse or exploitation outside their homes, including online, and from other children. All staff should be aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of these environments. All staff, but especially the designated safeguarding lead (and deputies) should consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence. Staff will remain vigilant and alert to these potential risks. They must also recognise and take seriously the danger of child-on-child abuse.

Aims

The aims of this policy are:

- to support students' development in ways that will foster security, confidence and resilience, free from discrimination.
- to provide an environment in which children and young people feel safe, secure, valued and respected and feel confident that they know how to approach adults if they are in difficulties.
- to ensure all teaching and non-teaching staff are aware of the need to safeguard and promote the well-being of children, identifying the need for support early to promote well-being and promptly reporting cases of actual or suspected abuse. This includes supply staff and volunteers.
- to provide a systematic means of monitoring children known or thought to be at risk of harm and ensure we, the school, contribute to assessments of need and support plans for those children.
- to acknowledge the need for effective and appropriate communication, ensuring staff know how and when to share information to protect children in a way that is legal and ethical.
- to ensure our school has a clear system for communicating concerns and a model for open communication between children, teachers, parents and other adults working with children.
- to underpin a structured procedure within the school, which will be followed by all members of the school community in cases of suspected abuse.
- to ensure the school has robust systems in place which accurately record safeguarding and child protection concerns, which are clearly understood by staff and are adhered to. Actions taken to address concerns and outcome achieved are clearly and accurately recorded and these records are appropriately stored.
- to develop effective working relationships, guided by The Continuum of Need Incorporating Threshold Guidance with all other agencies involved in safeguarding and promoting the needs of children at our school. (The Continuum of Need - Buckinghamshire Safeguarding Children Partnership (buckssafeguarding.org.uk))
- to ensure that all staff appointed within our school have been through the safer recruitment process and understand the principles of safer working practices as set out in our Staff Code of Conduct, which stipulates their duty to challenge and report where behaviours of colleagues may have stepped outside of agreed safe practices. This includes low-level concerns.
- to ensure that any community users of our facilities have due regard to expectations of how they should maintain a safe environment, which supports children's well-being.
- to ensure that the school works in line with locally agreed inter-agency procedures. These are currently led by Buckinghamshire Safeguarding Children's Partnership.

This policy dovetails with all relevant policies, in particular, the Recruitment Policy. It must also be read in conjunction with the Employment Manual, the school's Code of Conduct for Staff and Whistleblowing Policy. The Acceptable Use of ICT Policy outlines the use of mobile technology which has safeguarding implications. The Visitors Policy and Visiting Speakers Protocol also are relevant to safeguarding and must be taken note of. This policy is published on our website, within the About Us area, under Policies: [Pipers Corner Policies](#)

Equalities Statement

Some children have an increased risk of abuse, and **additional barriers can exist for some children with respect to recognising or disclosing it**. We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face.

We give special consideration to children who:

- have special educational needs (SEN) or disabilities or health conditions
- are young carers
- may experience discrimination due to their race, ethnicity, religion, gender identification or sexuality
- have English as an additional language

- are known to be living in difficult situations – for example, temporary accommodation or where there are issues such as substance abuse or domestic violence
- are at risk of FGM, sexual exploitation, forced marriage, or radicalisation
- are asylum seekers
- are at risk due to either their own or a family member's mental health needs
- are looked after or previously looked after
- are missing from education
- whose family has expressed an intention to remove them from school to be home educated

Responsibilities

All staff, supply staff, visitors, contractors, volunteers and governors understand safeguarding children is **everyone's responsibility** and that they must be diligent to help secure children's safety and wellbeing. This policy applies to all staff, volunteers and governors in the School and is consistent with the procedures of the 3 safeguarding partners. Our policy and procedures also apply to extended school and off-site activities.

The School plays a crucial role in preventative education. This is in the context of a whole-school approach to preparing pupils for life in modern Britain, and a culture of zero tolerance of sexism, misogyny/misandry, homophobia, biphobia and sexual violence/harassment. This will be underpinned by our:

- Behaviour policy
- Pastoral support system
- Planned programme of relationships, sex and health education (RSHE), which is inclusive and delivered regularly, tackling issues such as:
 - Healthy and respectful relationships
 - Boundaries and consent
 - Stereotyping, prejudice and equality
 - Body confidence and self-esteem
 - How to recognise an abusive relationship (including coercive and controlling behaviour)
 - The concepts of, and laws relating to, sexual consent, sexual exploitation, abuse, grooming, coercion, harassment, rape, domestic abuse, so-called honour-based violence such as forced marriage and female genital mutilation (FGM) and how to access support
 - What constitutes sexual harassment and sexual violence and why they're always unacceptable

All staff will:

- read and understand part 1 of the Department for Education's statutory safeguarding guidance, [Keeping Children Safe in Education](#), and review this guidance at least annually.
- sign a declaration at the beginning of each academic year to say that they have reviewed the guidance.
- reinforce the importance of online safety when communicating with families. This includes making families aware of what we ask children to do online (e.g. sites they need to visit or who they'll be interacting with online)
- provide a safe space for students who are LGBT to speak out and share their concerns

All staff will be aware of:

- our systems which support safeguarding, including this Policy, the Behaviour and Rewards Policy, the role and identity of the designated safeguarding lead (DSL) and Deputy DSLs and the safeguarding response to children who go missing from education
- the early help assessment process (sometimes known as the common assessment framework) and their role in it, including identifying emerging problems, liaising with the DSL, and sharing information with other professionals to support early identification and assessment

- the process for making referrals to local authority children's social care and for statutory assessments that may follow a referral, including the role they might be expected to play
- what to do if they identify a safeguarding issue or a child tells them they are being abused or neglected, including specific issues such as FGM, and how to maintain an appropriate level of confidentiality while liaising with relevant professionals
- the signs of different types of abuse and neglect, as well as specific safeguarding issues, such as child-on-child abuse, child sexual exploitation (CSE), child criminal exploitation (CCE), indicators of being at risk from or involved with serious violent crime, FGM, radicalisation and serious violence (including that linked to county lines)
- the importance of reassuring victims that they are being taken seriously and that they will be supported and kept safe
- the fact that children can be at risk of harm inside and outside of their home, at school and online
- the fact that children who are (or who are perceived to be) lesbian, gay, bi or trans (LGBT) can be targeted by other children
- what to look for to identify children who need help or protection

Any member of staff, volunteer or visitor to the school who receives a disclosure of abuse, an allegation of abuse or suspects that abuse may have occurred will report it immediately to Mr Andrew McClean (Designated Safeguarding Lead; DSL) or, in his absence, to Mrs Helen Ness-Gifford or Mrs Caroline Derbyshire (Deputy Designated Safeguarding Leads). In the absence of all of the above, concerns will be brought to the attention of a member of the Safeguarding Committee or the most senior member of staff available.

Ross Urquhart is the EYFS Safeguarding Lead Practitioner and he will be responsible for liaison with local statutory services and Buckinghamshire Safeguarding Children's Partnership for EYFS students. He will provide support and guidance to other staff on an ongoing basis and on any specific safeguarding issue. He will liaise closely with the DSL on all EYFS safeguarding issues.

Staff

Staff must maintain a good working knowledge of the [Buckinghamshire Continuum of Need](#) and any updates and how it should be used to inform decision making regarding a referral to First Response.

Staff have the skills, knowledge and understanding to keep both looked after children and previously looked after children safe.

Staff understand vulnerability and that barriers exist; when recognising abuse and neglect of children they will consider the following groups who may have increased vulnerability:

- Young carers
- Children with SEND
- Children living with domestic abuse
- Children whose parents suffer with poor mental health, including substance misuse
- Children suffering criminal exploitation, including sexual exploitation, radicalisation and gang involvement
- Looked after children and previously looked after children
- Children who have a social worker
- Privately fostered children
- Asylum seekers
- Victims of so-called Honour Based Violence, including FGM and forced marriage
- Children who frequently go missing or whose attendance is a concern
- Children who are part of the LGBTQ group or who are exploring gender identification
- Children who are at risk of discrimination due to faith and believe, race or ethnicity.
- Children who have English as an additional language (EAL)
- Children who live in temporary accommodation

Additional barriers can exist when recognising abuse and neglect in children with SEND. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- These children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children
- The potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- Communication barriers and difficulties in managing or reporting these challenges.

Governance

The Governing Body understands and fulfils its safeguarding responsibilities. It will:

- Ensure the Headteacher and the DSL create and maintain a strong, positive culture of safeguarding within the school.
- Ensure the school Safeguarding Policy reflects the unique features of the community it serves and the needs of the students attending its provision. This will be reviewed at least annually.
- Monitor and evaluate the effectiveness of the Safeguarding Policy and be satisfied that it is being complied with.
- Ensure a Designated Safeguarding Lead (DSL) and Deputies who are senior members of staff within the Leadership Team, with the required level of authority, are appointed. The roles and responsibilities of the DSL and Deputy DSLs are made explicit in those post-holders' job descriptions outlined in Appendix 2, (Annex C of September 2025 KCSIE).
- Recognise the importance of the role of the DSL, ensuring s/he has sufficient time, training skills and resources, as necessary to be effective.
- Ensure measures are in place to have oversight of how the school delivers on its responsibilities are exercised and evidenced, to include reviewing online filtering and monitoring on a regular basis and at least annually, following up with the Headmistress, any identified gaps in practice or where procedures may not have been followed.
- Recognise the contribution the school can make to helping children and young people keep safe, through incorporation of safeguarding within the curriculum. This will also be taught through the PSHE curriculum and relevant issues through the Relationship Education (primary schools) or Relationships and Sex Education (secondary schools, mandatory from September 2020). Ensure that, through curriculum content and delivery, children understand how to keep themselves safe.
- Ensure that school is following the statutory RSE guidance by discussion with the Head of Life Skills and review of the curriculum - [Relationships and sex education \(RSE\) and health education](#)
- Ensure safe and effective recruitment policies and disciplinary procedures are in place, which adhere to "Keeping Children Safe in Education (KCSIE)" (September 2025) and legislation referred to therein.
- Ensure the needs of students for early intervention and Child Protection are fully understood and resources allocated to meet identified needs.
- Monitor records of low-level concerns.
- Ensure staff and students undertake online safety training regularly, to include their roles and responsibilities with regards to the school IT system's online filtering and monitoring.
- Ensure staff are aware of the danger of child-on-child abuse, including of a sexual nature, and that this and procedures to deal with it are covered in the Safeguarding Policy.
- Support the DSL to complete an Annual Safeguarding Report for Governors, demonstrating how our school is meeting its statutory responsibilities for safeguarding and promoting the welfare of children, ensuring a copy of this report is shared with the Education Safeguarding Advisory Service within the recommended time frame.

It will be the duty of the Chair of Governors to liaise with relevant agencies if any allegations are made against the Headmistress. If there are concerns that issues are not being progressed in an expedient manner, staff /students/parents should escalate concerns directly to the Local Authority Designated Officer.

The Governing Body must ensure that procedures are in place to manage safeguarding concerns of allegations against staff, supply staff, governors, volunteers, visitors or contractors where they could pose a risk of harm to children. This must include those concerns that do not meet threshold (low-

level concerns). The guidance in part four of Keeping Children Safe in Education 2025 must be followed if there were any such concerns.

The Governing Body must ensure that a named teacher is designated for Children Looked After. This is the Designated Safeguarding Lead. They must also ensure that an up-to-date list of children who are subject to a Care Order or are accommodated by the County Council is regularly reviewed and updated. The school must work with the Virtual Schools Team to support the educational attainment for those children who are Looked After.

The Governing Body must have assurance that any alternative provision attended by children on roll has appropriate safeguarding arrangements and child protection policies in place. The Governing Body must ensure that any children, at such a provision, are visited whilst they are attending, that the curriculum is appropriate to the needs of the child and that attendance is monitored daily.

The Nominated Safeguarding Governor will be familiar with Buckinghamshire Safeguarding Children's Partnership (BSCP) procedures, Local Authority procedures and guidance issued by the Department for Education. [Buckinghamshire Safeguarding Children Partnership](#)

The Nominated Governor will:

- undertake the training available for Nominated Governors.
- ensure child protection is, as a minimum, an annual agenda item for the Governing Body.
- meet termly with the DSL to review and monitor the school's delivery on its safeguarding responsibilities.
- ensure that filtering and monitoring systems are in place and take part in the review

All governors will undertake safeguarding training including Prevent training on appointment.

The governing body must ensure that relevant staff have due regard to the relevant data protection principles set out in the Data Protection Act 2018 and the GDPR, which allow them to share or withhold personal information when it is necessary to safeguard any child. This includes:

- Being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information which is sensitive and personal, and should be treated as 'special category personal data'.
- Understanding that 'safeguarding of children and individuals at risk' is a processing condition that allows practitioners to share special category personal data. This includes allowing practitioners to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child in a timely manner but it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk.
- Not providing students' personal data where the serious harm test under the legislation is met. For example, in a situation where a child is in a refuge or another form of emergency accommodation, and the serious harm test is met, they must withhold providing the data in compliance with schools' obligations under the Data Protection Act 2018 and the GDPR. Where in doubt, schools should seek independent legal advice. The Data Protection Act 2018 and GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.

Designated Safeguarding Lead Responsibilities

We have a Designated Safeguarding Lead (DSL) who is responsible for:

- Creating a culture of safeguarding where children are protected from harm. Ensuring children receive the right help at the right time using [The Continuum of Need - Buckinghamshire Safeguarding Children Partnership](#) to inform plans for support or protection (see Part 5 of KCSIE 2025 Appendix 1 for definitions of the categories of abuse).

- Ensuring children receive the right help at the right time using the Buckinghamshire Threshold Document to inform plans for support or protection (see Appendix for definitions of the categories of abuse).
- Ensuring referrals to partner agencies are followed up in writing, within 24 hours of initial contact.
- Establishing and embedding a policy and process for recording and storing information about child protection concerns and outcomes achieved, enabling records to be reviewed and an overview gained, to support timely interventions and allowing prompt follow up, if it is felt the needs of the student are not being met. This includes use of the Escalation Process found on the BSCP website.
- Ensuring records are up-to-date and staff are supported to differentiate between fact/ opinion/ hearsay and are maintained in accordance with data protection, and are held separately from pupils' educational records
- Ensuring records are stored safely and securely and remain confidential, within the school's CPOMS safeguarding software, where access is only available to specific staff from the safeguarding team. The DSL will share information with staff who are unable to access CPOMS safeguarding records on a "need to know" basis only and in accordance with the confidentiality policy. All child protection files are held **separately** from general student records. CPOMS safeguarding software provides an overview of student's safeguarding incidents and is used by the DSL/Safeguarding & Pastoral Admin Manager to run a chronology as and when required.
- Creating a culture of safeguarding and vigilance within the school, beginning with ensuring all staff receive an appropriate level of induction and training to support them to be professionally curious, to question behaviours and to "think the unthinkable" if they have concerns for a student.
- Acting as a focal point for staff to be able to discuss and share their concerns, supporting staff to formulate their thinking and be part of planning to address issues raised, liaising with other agencies and professionals to achieve change.
- Ensuring the online filtering and monitoring system is reviewed regularly, at least annually.
- Maintaining the record for staff safeguarding training. Ensuring that the safeguarding team contact details and photos are displayed in prominent areas around the school and also on the website. Ensuring that Pipers Corner School's most up to date **Safeguarding and Promoting Children's Wellbeing Policy** is widely available (on the website), publishing the **Safeguarding Statement** and other relevant information on the school website.
- Being available to staff during school hours and term time for consultation and advice on safeguarding concerns raised. In their absence, the DSL will ensure the deputy is available. (The DSL and deputies and safeguarding committee are all trained to the same level within our school and members of the safeguarding committee can stand in if the DSL and deputy DSLs are not available).
- Ensuring arrangements are in place to support staff outside of these times if students are off site and accompanied by staff.
- Contributing effectively to multiagency working for the purpose of safeguarding and promoting the welfare of students, participating in Strategy discussions and attending Child Protection Case Conferences, submitting reports to the Conference, which will be shared in advance with the parents. Contributing effectively to core group meetings, or other multi-agency planning meetings and contributing to the Framework for Assessments process.
- Providing the Headmistress (if the Headmistress is not the DSL) with an annual report for the Governing Body, detailing how school delivers on its safeguarding responsibilities and any child protection issues within the school. The Governing Body will use this report to fulfil its responsibility to provide the Local Authority with information about their Safeguarding policies and procedures.
- Meeting regularly (a minimum of once per term) with the Nominated Governor to share oversight of safeguarding provision within the setting, monitor performance and develop plans to rectify any gaps in delivery noted.
- Meeting the statutory requirement to keep up-to-date with knowledge, enabling them to fulfil their role, including attending relevant training.
- Referring suspected cases, as appropriate, to the relevant body (local authority children's social care, Channel programme, Disclosure and Barring Service, and/or police), and support staff who make such referrals directly.
- Referring to the Police any cases where a criminal offence may have been committed or risk of harm is imminent. Further guidance can be found here: [When to call the Police](#)

- Discuss the local response to sexual violence and sexual harassment with police and local authority children's social care colleagues to prepare the school's policies
- Be confident that they know what local specialist support is available to support all children involved (including victims and alleged perpetrators) in sexual violence and sexual harassment, and be confident as to how to access this support
- Be aware that children must have an 'appropriate adult' to support and help them in the case of a police investigation or search.
- Retaining overall responsibility for the safeguarding of students although tasks may be delegated to other members of the safeguarding team at the school.
- Taking responsibility for and having oversight of online safety and training for staff and students.
- Ensuring students feel child-on-child abuse is taken seriously and staff understand how to respond to this.
- Undertaking a risk assessment for any young person who reports sexual harassment or violence.
- Completing DSL refresher training every 2 years and updating their skills and knowledge at least annually, through means such as training, reading bulletins and attending DSL forums
- To fulfil the DSL responsibilities as set out in the KCSIE, Annex C

The Deputy DSLs will undertake the activities of the DSL in their absence, but the ultimate lead responsibility for child protection remains with DSL.

The EYFS safeguarding lead practitioner is Ross Urquhart and he will be responsible for liaison with local statutory services and Buckinghamshire Safeguarding Children's Partnership for EYFS students. He will provide support and guidance to other staff on an ongoing basis and on any specific safeguarding issue. He will liaise closely with the DSL on all EYFS safeguarding issues.

The Headteacher is responsible for the implementation of this policy, including:

- Ensuring that staff (including temporary staff) and volunteers:
 - Are informed of our systems which support safeguarding, including this policy, as part of their induction
 - Understand and follow the procedures included in this policy, particularly those concerning referrals of cases of suspected abuse and neglect
- Communicating this policy to parents/carers when their child joins the School and via the School website
- Ensuring that the DSL has appropriate time, funding, training and resources, and that there is always adequate cover if the DSL is absent
- Ensuring that all staff undertake appropriate safeguarding and child protection training, and updating the content of the training regularly
- Acting as the 'case manager' in the event of an allegation of abuse made against another member of staff or volunteer, where appropriate (see appendix 3)
- Making decisions regarding all low-level concerns, though they may wish to collaborate with the DSL on this
- Ensuring that this policy is updated annually or before to reflect any changes to guidance and/or legislation.
- Liaising with the LADO in the event of an allegation being made against a member of the staff, volunteer or an organisation using the school premises.
- Ensuring that appropriate cover is in place to attend strategy meetings or CP conferences that take place during the school holidays or in the event that the DSL is absent.
- Ensuring that a designated 'Appropriate Adult' is in place in order to support children in line with the Police and Criminal Evidence (PACE) act, [PACE Code C 2023 \(accessible\)](#) which advises that "The role of the appropriate adult (AA) is to safeguard the rights, entitlements and welfare of juveniles and vulnerable persons", with there being further elaboration that the AA is expected to observe that the police are acting properly and fairly in relation to a vulnerable detained persons rights and entitlements, as well as helping the detained person understand their rights. This can also be found as part the school's Searching and Screening Policy.

Supporting Students

Staff must maintain open communication with the students in their care and be vigilant for any signs of abuse. Students must also be reminded of whom they can turn to when they have an issue. Our school will support all students by:

- Encouraging the development of self-esteem, resilience and critical thinking in every aspect of school life including through the curriculum.
- Promoting a caring, safe and positive environment within the school.
- Monitoring all absences from school and promptly addressing concerns about irregular attendance with the parent/carer.
- Liaising and working together with all other support services and those agencies involved in the safeguarding of children and using the expertise and resources of colleagues in other service areas to promote the welfare of students.
- Ensuring staff work with Prevent Officers and the Channel Panel to support and safeguard if a student is thought to be vulnerable to or espousing radical political ideologies.
- Liaising with the parent/carer, GP and school nurse to ensure that an appropriate care plan is in place if a student has medical needs.
- Developing a good working knowledge of The Continuum of Need Incorporating Threshold Guidance and how it can be used to safeguard and promote the well-being of students, informing the notification to Social Care (First Response) as soon as there is a significant concern.
- Ensuring that a named teacher who is the DSL is designated for Children Looked After and that an up-to-date list of children who are subject to a Care Order or are accommodated by the County Council is regularly reviewed and updated. We will work with the Virtual Schools Team to support the educational attainment for children looked after at our school.
- Staff being sensitive to the needs of children who are “looked after”, recognising they are likely to have encountered difficulties and challenges which may mean they are disproportionately affected by the behaviours of their peers, e.g. teasing, bullying or when negotiating relationships.
- Seeking appropriate advice, support and guidance to enable us to critically evaluate safeguarding information and concerns, and to act on them appropriately.
- Providing continuing support to a student (about whom there have been concerns) who leaves the school, by ensuring that such concerns and school medical records are forwarded under confidential cover to the DSL at the student’s new school as a matter of urgency/within the first term.
- Teaching children to keep themselves safe online.
- Children may need a social worker due to safeguarding or welfare needs. Children may need this help due to abuse, neglect and complex family circumstances. A child’s experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health. Local authorities should share the fact a child has a social worker, and the designated safeguarding lead will hold and use this information so that decisions can be made in the best interests of the child’s safety, welfare and educational outcomes. This should be considered as a matter of routine. There are clear powers to share this information under existing duties on both local authorities and schools to safeguard and promote the welfare of children. Where children need a social worker, this should inform decisions about safeguarding (for example, responding to unauthorised absence or missing education where there are known safeguarding risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services). The Children in Need review, [‘Improving the educational outcomes of Children in Need of help and protection’](#) contains further information; the conclusion of the review, [‘Help, protection, education’](#) sets out action Government is taking to support this.
- Schools have an important role to play in supporting the mental health and well-being of their students. Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. There are clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems which are outlined in the Mental Health Policy. Schools can access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies. More information can be found in the ‘mental health and behaviour in schools’ guidance. Public Health England has produced a range of resources to

support secondary school teachers to promote positive health, well-being and resilience among young people. See [Rise Above](#)

At our school, we work hard to understand the impact on children of living in families experiencing difficulties relating to mental ill-health and/or substance misuse and/or domestic violence and know that the children might experience abuse or neglect as a result of these difficulties.

The DSL, along with the rest of our staff, have received training to recognise and respond appropriately should suspicions arise, ensuring signs and indicators are progressed to inform plans of support.

- Students are encouraged to seek help and support and are provided with information about how to access this, if they are encountering problems at home or elsewhere.
- Whilst we strive to work together with families, staff understand that sharing information with parents may not always be appropriate and ensure that decisions of this nature are made in partnership with Children's Social Care or the Police.

Definitions of abuse, neglect and exploitation

(See also KCSIE 2025 Parts one, five and Annex B).

Abuse is a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

We are mindful of the vulnerability of key groups of children such as those with SEND, young carers, children involved in anti-social behaviour, those misusing drugs or alcohol, those at risk of modern day slavery, exploitation, radicalisation or trafficking, looked after children, privately fostered children, children who go missing from home or care, and those who have family circumstances such as drug abuse or domestic violence which are challenging.

All school staff should be aware of the definitions, signs and symptoms of abuse as outlined in Annex B of KCSIE 2025, which they must have read.

There is excellent guidance about identifying abuse in ["What to do if you're worried a child is being abused"](#).

The four main areas are:

- Physical abuse
- Emotional abuse
- Sexual abuse
- Neglect.

Possible signs of abuse

The following signs may or may not be indicators that abuse has taken place, but the possibility should be considered.

Signs of possible physical abuse

- Any injuries not consistent with the explanation given for them
- Injuries which occur to the body in places which are not normally exposed to falls or rough games
- Injuries which have not received medical attention
- Reluctance to change for, or participate in, games or swimming
- Bruises, bites, burns and fractures, for example, which do not have an accidental explanation
- The child gives inconsistent accounts for the cause of injuries

- Frozen watchfulness.

Signs of possible sexual abuse

- Any allegations made by a child concerning sexual abuse
- The child has an excessive preoccupation with sexual matters and inappropriate knowledge of adult sexual behaviour for their age, or regularly engages in sexual play inappropriate for their age
- Sexual activity through words, play or drawing
- Repeated urinary infections or unexplained stomach pains
- The child is sexually provocative or seductive with adults
- Inappropriate bed-sharing arrangements at home
- Severe sleep disturbances with fears, phobias, vivid dreams or nightmares which sometimes have overt or veiled sexual connotations
- Eating disorders such as anorexia or bulimia.

Signs of possible emotional abuse

- Depression, aggression, extreme anxiety, changes or regression in mood or behaviour, particularly where a child withdraws or becomes clingy
- Obsessions or phobias
- Sudden underachievement or lack of concentration
- Seeking adult attention and not mixing well with other children
- Sleep or speech disorders
- Negative statements about self
- Highly aggressive or cruel to others
- Extreme shyness or passivity
- Running away, stealing and lying.

Signs of possible neglect

Dirty skin, body smells, unwashed, uncombed hair and untreated lice

- Clothing that is dirty, too big or small, or inappropriate for weather conditions
- Frequently left unsupervised or alone
- Frequent diarrhoea
- Frequent tiredness
- Untreated illnesses, infected cuts or physical complaints which the carer does not respond to
- Frequently hungry
- Overeating junk food.

Further information can also be found on the [NSPCC website](#) which outlines common signs of abuse: All staff are expected to have read this.

All school staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap with one another.

Specific areas to be considered

There are a number of other areas outlined in Annex B of KCSIE 2025 which staff must have read and are expected to be mindful of such as:

- Child abduction and community safety incidents
- Children and the court system
- Children missing education (CME)
- Children with family members in prison

- Child criminal exploitation (CCE) and child sexual exploitation (CSE) are forms of abuse
- County lines and/or gangs
- Modern slavery and the National Referral Mechanism
- Cybercrime
- Domestic abuse (DA)
- Homelessness
- So-called “honour-based” abuse, including FGM and forced marriage
- Female genital mutilation (FGM)
- Forced marriage
- Preventing radicalisation
- The Prevent duty
- Channel
- Additional support
- Child-on-child / child-on-child abuse
- Sexual violence and sexual harassment between children in schools and colleges
- Upskirting
- The response to a report of sexual violence and sexual harassment between children in schools and colleges.

All staff are made aware that they have a mandatory duty to report cases of FGM to the Police.

Online abuse and e-safety

Online abuse must be recognised as a real danger to children and can take place wholly online or technology may be used to facilitate offline abuse. They may be abused by an adult or adults or another child or children.

Whilst a central part of our work with students is to support them to stay safe whilst online, we also have in place appropriate web filtering systems so that young people cannot view potentially extreme material, which we also monitor. Staff and students will undertake online safety training

All staff are aware of the school’s expectations regarding e-safety covered in the Acceptable Use of ICT Policy which sets out our expectations relating to:

- Creating a safer online learning environment.
- Giving everyone the skills, knowledge and understanding to help children and young people stay safe online, question the information they are accessing and support the development of critical thinking.
- Inspiring safe and responsible use and behaviour of mobile technologies, to combat behaviours online which may make students vulnerable, including sexting.
- Use of mobile technology both within school and on school trips/outings.
- Use of camera equipment, including camera phones.
- What steps to take if there are concerns and where to go for help.
- Staff use of social media as set out in the Staff Code of Conduct.
- Staff training on online safety.
- Cyber-bullying by children, via texts and emails, will be treated as seriously as any other type of bullying and will be managed through our anti-bullying procedures. This includes sending nudes and semi-nude images and image exchange under threat or use of coercion.

We have an Acceptable Use of ICT Policy which sets out the acceptable use of mobile technologies by students whilst on-site. This includes sanctions which will be applied when these boundaries are not adhered to.

We are aware of the risks posed by children in the online world; in particular non-age appropriate content linked to self-harm, suicide, grooming and radicalisation.

Pupils, staff and parents/carers are supported to understand the risks posed by:

- the CONTENT accessed by pupils – risks such as misinformation, disinformation, including fake news and conspiracy theories.
- their CONDUCT on-line
- who they have CONTACT within the digital world
- COMMERCE - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

Further information can be found in our Acceptable Use of ICT Policy.

The School has online filtering and monitoring systems in place to ensure children are safeguarded from potentially harmful online material. These systems are regularly monitored, at least annually, by the DSL, IT provider and nominated governor. A record is kept of the reviews.

The School will follow the advice as given by the government, to advise and support children with any online learning taking place at home to ensure this is done so safely.

Our Acceptable Use of ICT Policy sets out the acceptable use of mobile technologies by students whilst onsite. This includes sanctions which will be applied when these boundaries are not adhered to.

Visitors to our school are respectfully requested to turn all mobile devices off.

Staff use of mobile technology whilst on site is set out in the Staff Code of Conduct.

All staff receive online awareness training in order to understand the risks children are exposed to. On induction and at least once per academic year.

All staff have an understanding of expectations roles and responsibilities with regards to the online filtering and monitoring processes.

The DfE has published Generative AI: product safety expectations to support schools to use generative artificial intelligence safely, and explains how filtering and monitoring requirements apply to the use of generative AI in education. [Generative AI: product safety expectations](#)

Sending nudes and semi-nude images

Sending nude or semi-nude images is one of a number of “risk-taking” behaviours associated with the use of digital technologies, social media or the internet. It is accepted that young people experiment and challenge boundaries and therefore the risks associated with ‘online’ activity can never be completely eliminated.

Further advice and guidance can be found using the link below:

[Sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Staff, students and parents are supported via training to understand that the creation and sharing of sexual imagery, such as photos or videos, of under 18s is illegal. This includes imagery of students themselves if they are under the age of 18.

Any disclosures/incidents that occur will follow the normal safeguarding practices and protocols for our School. We will also use the guidelines for responding to incidents, as set out in:

[Sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

produced by the UK Council for Internet Safety. The DSL will inform parents/carers of any incidents.

Child-on-Child Abuse

All staff should be aware that safeguarding issues can manifest themselves via child-on-child abuse. Staff are reminded that child-on-child abuse is totally unacceptable and must not be tolerated or passed off as “banter”, just having a laugh” or “part of growing up”. It is recognised that it is more likely that girls will be victims and boys perpetrators which, in a single sex environment, makes this less of a challenge, but staff must not be complacent as not all abuse takes place within school and whilst it is more likely girls will be victims and not perpetrators, that does not mean it is always that way. Child-on-child abuse can take place outside or inside school, or online, but it is our duty to protect a child who has been harmed or is at risk of harm wherever that abuse may have taken place.

All child-on-child abuse is unacceptable and will be taken seriously. Appendices 3 and 4 outline the procedures the school follows when dealing with such issues.

The unacceptability of such behaviour will be covered in Life Skills (PSHE), assemblies and in tutor time.

The students also have access to confidential support in order to encourage them to share concerns. Students are made aware they can report such abuse to any trusted adult. Each child has key pastoral staff such as their form tutor and Head of Year as well as access to the School Counsellor and Well-being Manager. All students have a 1:1 with their tutor at least termly and staff are encouraged to monitor the students for signs of concern. Students are aware they can turn to any member of staff they feel comfortable talking to. Students are made aware by notices and also discussion of who to turn to and that their concerns will be taken seriously.

Staff are aware that if a child reports child-on-child abuse they must reassure them their concerns are being taken seriously and that they will be supported and kept safe.

Standard safeguarding procedures must be followed and concerns must be passed on to the DSL.

Staff are aware they must report any concerns about a child to the DSL or Deputies. If the child is at risk they should find the DSL or Deputies immediately or, if the risk is not immediate, they may use CPOMS to alert them to the issue, copying in the Head of Year and Form Tutor.

Students will have the procedures that would take place if they report child-on-child abuse covered in Life Skills lessons annually.

Allegations of child-on-child abuse will be recorded on CPOMS, investigated and dealt with; victims, perpetrators and any other children affected by child-on-child abuse will be supported by pastoral staff as befits the situation.

The following will be considered when dealing with incidents:

- Whether there is a large difference in power between the victim and perpetrator i.e. size, age, ability, perceived social status or vulnerabilities, including SEND, CP/CIN or CLA
- Whether the perpetrator has previously tried to harm or intimidate students
- Any concerns about the intentions of the alleged perpetrator.

In order to minimise the risk of child-on-child abuse taking place, school will:

- Deliver RE/RSE/Life Skills to include teaching students about how to keep safe and understanding what acceptable behaviour looks like
- Ensure that students know that all members of staff will listen to them if they have concerns and will act upon them
- Have systems in place for any student to be able to voice concerns
- Develop robust risk assessments, if appropriate
- Refer to any other relevant policies when dealing with incidents, such as the **Behaviour Policy** and/or the **Anti-Bullying Policy**.

Even if there are no reported cases of child-on-child abuse, such abuse may still be taking place and is simply not being reported.

Child-on-child abuse can take many forms, such as:

- Bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- Abuse in intimate personal relationships between peers
- Physical abuse which can include hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm
- Sexual violence and sexual harassment. [Part five of KCSIE and “Sexual violence and sexual harassment between children in schools and colleges”](#) sets out how schools and colleges should respond to reports of sexual violence and sexual harassment
- Sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party;
- Upskirting, which typically involves taking a picture under a person’s clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm
- Initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)
- Consensual and non-consensual sharing of nude and semi-nude images and/or videos

Staff are reminded of the particular dangers around online child-on-child abuse.

Sexual Violence & Sexual Harassment

Sexual violence and sexual harassment can occur between two children of **any age and sex**. It can occur through a group of children sexually assaulting or sexually harassing a single child or group of children. This can occur online, face to face (both physically and orally) and can take place inside or outside of school. As set out in Part five of the KCSIE 2025, all staff maintain an attitude of “**it could happen here**” and it is never acceptable.

All staff should be made aware that ‘upskirting’ is now a criminal offence.

Appendix 8 will be used to ensure consideration is given to key aspects in supporting a young person who reports sexual violence and sexual harassment.

All staff have a responsibility to address inappropriate behaviour in a timely manner, however seemingly insignificant it may appear.

All victims will be reassured that they are being taken seriously and that they will be supported and kept safe. No child will ever be made to feel ashamed for making a report or that they are creating a problem for our school.

Consensual and non-consensual sharing of nudes and semi-nude images and/or videos (also known as sexting or youth produced sexual imagery) is a particular danger which is covered elsewhere in this Policy. Sexting is an unsafe practice and students will be educated on this via Life Skills (PSHEE). Any instances of students being involved in sexting will be dealt with by the DSL and external agencies will be involved as required. The Department of Education provides [Searching, Screening and Confiscation Advice](#) for schools and this must be adhered to.

Serious Violence

All staff should be aware of indicators which may signal that children are at risk from, or are involved with, serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in well-being, or signs of assault or unexplained injuries.

Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs.

All staff should be aware of the associated risks and understand the measures in place to measure these. Advice for schools is provided in the Home Office's Preventing Youth Violence and Gang Involvement and its Criminal Exploitation of Children and Vulnerable Adults: County Lines Guidance. Further detail on Child Sexual Exploitation (CSE) and Child Criminal Exploitation is given in Keeping Children Safe in Education 2025.

Both CSE and CCE are forms of abuse and both occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into sexual or criminal activity. Whilst age may be the most obvious factor, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources. In some cases, the abuse will be in exchange for something the victim needs or wants and/or will be to the financial benefit or other advantage (such as increased status) of the perpetrator or facilitator. The abuse can be perpetrated by individuals or groups, males or females, and children or adults. The abuse can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse. It can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence.

Victims can be exploited even when activity appears consensual and it should be noted that exploitation, as well as being physical, can be facilitated and/or take place online. More information on definitions and indicators is included in Annex B of KCSIE 2025.

Contextual Safeguarding

Contextual Safeguarding is an approach to understanding, and responding to, children's experiences of significant harm beyond their families. It recognises that the different relationships that children form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers may have little influence over these contexts, and children's experiences of extra-familial abuse can undermine parent/carers - children relationships. We recognise that students may encounter safeguarding issues that happen in the wider community and we will respond to such concerns, reporting to the appropriate agencies in order to support and protect the student.

All staff, and especially the DSLs, will consider the context of incidents that occur outside of school to establish if environmental factors may be putting the student's welfare and safety at risk. Children who may be alleged perpetrators will also be supported to understand the impact of contextual issues on their safety and welfare. In such cases, the individual needs and vulnerabilities of each child will be considered.

Further guidance can be found at: [Contextual Safeguarding](#)

Mental Health

Schools and colleges have an important role to play in supporting the mental health and well-being of their students. Mental health problems can, in some cases, be an indicator that a child has suffered, or is at risk of suffering, abuse, neglect or exploitation. Governing bodies and proprietors should ensure they have clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems. Staff recognise that traumatic adverse childhood experiences can have a lasting impact throughout a child's life and this can impact on mental health, behaviour and education.

Staff will report any mental health concern that is linked to a safeguarding concern to the DSL.

Where there are concerns for a child's mental health, we will seek advice from a trained professional, who would be able to make a diagnosis of a mental health problem.

The Department of Education has published advice and guidance on Preventing and Tackling Bullying, Mental Health and Behaviour in Schools. The Mental Health and Behaviour in Schools guidance sets out how schools and colleges can help prevent mental health problems by promoting resilience as part of an integrated, whole school/college approach to social and emotional well-being, which is tailored to the needs of their students. The School's Mental Health Policy also has further guidance.

Domestic Abuse

All staff recognise that children who experience domestic abuse, including intimate partner abuse, can suffer long-lasting emotional and psychological effects. Staff must report any concerns using the school's safeguarding procedures.

We recognise that some groups of children are potentially at greater risk of harm.

Prevent

We recognise the role school plays in identifying vulnerability and preventing the political indoctrination of students, either by self-radicalisation or through exposure to extremist views.

We are aware of the legal obligations under the Prevent Duty (Revised Prevent duty guidance: for England and Wales (December 2023)) to protect young people from radicalisation and extremism. At our school we view this as a safeguarding matter like any other and these processes will be applied to support children and their families where vulnerabilities are identified. Invariably, this will require us to work with partner agencies to support and protect the vulnerable student.

Concerns regarding the conduct or behaviour of a student, where it is believed they are vulnerable to extremism, will follow the same process of reporting as with any other safeguarding concern. A referral will be made to the First Response Team and passed by them to the Channel coordinator. Further details are outlined in the Prevent Action Plan. This includes the need for visiting speakers who come to school to deliver talks, workshops and other sessions to the students to be approved by the Deputy Head (Pastoral) after due consideration.

All school staff and governors have completed Prevent training.

We have in place and monitor appropriate web filtering systems.

The DSLs and senior leaders are familiar with their duties under The Prevent Duty Guidance: Revised Prevent duty guidance: for England and Wales (December 2023)

Actions to be undertaken if there are concerns about a child

We recognise the young minds of our students can be vulnerable and may be exploited by others; therefore staff will be alert to the signs of vulnerability and/or susceptibilities to violent extremism, grooming or indoctrination and report concerns via our child protection procedures.

We recognise that the school may provide the only stability in the lives of children who have been abused or who are at risk of harm; we therefore take our responsibilities seriously.

We accept that research shows that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or withdrawn. Research also tells us that children with special needs are at an increased risk of abuse. Changes in mood, patterns of behaviour, injury and responses to stimulus around them may be wrongly attributable to their disability. Staff are therefore trained to **question behaviours** and be **professionally curious** about changes noted. All staff are required to be prepared to "think the unthinkable", raise the concern and ensure safeguards are in place. We recognise children with communication difficulties may be especially vulnerable and, for this reason, we link behaviour with safeguarding. "Listening to behaviours" acknowledges that not all children will be able to verbalise what may be troubling them.

We recognise some students because of their life experiences or additional needs, including SEND, may be disproportionately affected by the behaviours of their peers or vulnerable to the influence of others. We will work in partnership with colleagues in other agencies to promote the well-being of this cohort of students.

Staff understand the need for a culture of vigilance to be present in the school to support safeguarding. This includes awareness and sensitivity to changes in the attitudes of students, which may indicate they are at risk of radicalisation.

The changing landscape of safeguarding and protecting children from harm requires staff to be aware of children being trafficked both from abroad and locally as part of ongoing exploitation, financial or sexual.

Through training, staff are aware that children's behaviours may pose a risk to their peers; behaviours may range from bullying to those which are sexually abusive.

Concerns for a child or young person may come to the attention of staff in a variety of ways, for example, through observation of behaviour, injuries or disclosure. Any member of staff who has concern for a child, however insignificant this might appear, should discuss this with the DSL or DDSL as soon as possible, or a member of the Safeguarding Committee in their absence. If the student is in Early Years, that discussion should initially be with the EYFS safeguarding lead if possible. Staff may also approach the relevant authorities directly. Guidance of whom to contact in what circumstances is given in at the start of the policy.

It is important to remember that students fall into two categories: those who have suffered or are at risk of suffering serious harm and those in need of additional support.

More serious concerns where children are at risk must be reported immediately to the relevant authority to ensure any intervention necessary is accessed as early as possible. If a crime has been committed, the matter will be reported to the Police.

Concerns of a less serious nature must also be considered and, if a child is considered to be in need, they should be referred externally in order to ensure early intervention and support. If the situation does not improve, further action must be taken. It is important to recognise the value of early intervention and not to hesitate to make a referral and involve outside agencies if necessary. This may be done by any member of staff, but usually the DSL will be informed. If someone else makes the referral, they must inform the DSL as soon as possible. If early help is appropriate and undertaken, then the case should be kept under constant review and further help requested if the situation does not improve. Local inter agency procedures such as the Buckinghamshire Continuum of Needs matrix will be used.

In the event of a child disclosing abuse, staff will:

- refer to the following guidance: ["What to do if You're Worried a Child is Being Abused"](#)
- listen to the child, allowing the child to tell what has happened in their own way, and at their own pace. Staff will not interrupt a child who is freely recalling significant events
- remain calm, be reassuring and supportive but will endeavour to not respond emotionally
- not ask leading questions. Staff are reminded to ask questions only when seeking clarification about something the child may have said. Staff are trained to use TED: Tell, Explain, Describe
- make an accurate record of what they have seen/heard using the school's record keeping processes, recording times, dates or locations mentioned, using as many words and expressions used by the child as possible. Staff will not substitute anatomically correct names for body part names used by the child. Any words which are unclear to the staff member will be spelt phonetically
- reassure the child that they did the right thing in telling someone; they will reassure the child that they have not done anything wrong
- explain to the child what will happen next and the need for the information to be shared with the DSL. If the student is in Early Years, that discussion should initially be with the EYFS safeguarding lead

In the unlikely event of the DSL and deputy DSL or any member of the safeguarding committee not being available, staff are aware they must ring First Response for advice.

The child will be monitored/accompanied at all times following a disclosure, until a plan is agreed as to how best they can be safeguarded.

Staff understand that, if there is an immediate risk of harm, then they call the Police or First Response directly and update the DSL at the earliest opportunity (see flow chart in Appendix 2).

If the child is in immediate danger and urgent protective action is required, the police and/or ambulance must be called, via 999. The DSL must notify First Response of the occurrence, what action has been taken and to take advice about informing parents/carers.

- Staff will ensure the child is in a safe place and in receipt of support, should this be needed.
- Staff will initially make an oral report to the DSL/EYFS lead if the student is in EYFS to alert them to the safeguarding/child protection concern arising.
- Staff will then follow this up, making a written report using the school record keeping process on CPOMS.
- All concerns will be recorded on CPOMS.
- Staff will ensure the **time and date** of the incident is recorded.
- A factual account of the incident must be recorded, including **who** was involved, **what** was said/seen/heard, **where** the incident took place, any preceding information which may have prompted the event.

Following a report of concerns

- The DSL must decide whether there are sufficient grounds for suspecting significant harm, in which case a referral must be made to First Response and the Police if it is appropriate. The rationale for this decision should be recorded by the DSL. The designated safeguarding lead and any deputies should liaise with the three safeguarding partners and work with other agencies in line with Working together to safeguard children 2023: statutory guidance (updated June 2025).
- [NSPCC - When to call the Police](#) will help designated safeguarding leads understand when they should consider calling the Police and what to expect when they do.
- If a disclosure is made, First Response must be called. If a concern does not involve a disclosure, then Early Help can advise.
- The School must try to discuss any concerns about a child's welfare with parents/carers and, where possible, obtain informed consent before making a referral to First Response. However, in accordance with DfE guidance, this should only be done when it will not place the child at increased risk or could impact a Police investigation. Where there are doubts or reservations about involving the child's family, the DSL should clarify with First Response or the Police whether the parents/carers should be told about the referral and, if so, when and by whom. This is important in cases where the Police may need to conduct a criminal investigation. The child's views must also be taken into account.
- If there are grounds to suspect a child is suffering or is likely to suffer significant harm, the DSL (or Deputy) must contact First Response by telephone in the first instance and then complete the Multi Agency Referral Form (MARF), making a clear statement of:
 - the known facts
 - any suspicions or allegations
 - whether or not there has been any contact with the child's family.
- If the child is in immediate danger and urgent protective action is required, the Police must be called. The DSL must then notify First Response of the occurrence and what action has been taken.
- Any member of staff can make a referral.

If a child needs urgent medical attention, the DSL (or Deputy) should call an ambulance via 999. DSL to contact First Response; advice to be sought from First Response about informing parents/carers.

Our school procedures for safeguarding and protecting children from harm are in line with Buckinghamshire Safeguarding Children's Partnership, "" Working together to safeguard children 2023: statutory guidance (updated June 2025) and "Keeping Children Safe in Education" 2025 and statutory guidance issued under section 29 of the Counter-Terrorism and Security Act 2019.

Wider responsibilities and safeguarding measures

We will ensure:

- We have designated members of the Senior Leadership Team who have undertaken appropriate training for the role, as recommended by Buckinghamshire Safeguarding Children's Partnership. Our Designated Safeguarding Lead (DSL) will be required to update their training in accordance with the guidance given by Buckinghamshire Safeguarding Children's Partnership.
- We have members of staff (Deputy Safeguarding Leads) who will act in the DSL's absence, who have also received training for the role of DSL and who will have been briefed in the role. In the absence of these members of staff, a member of the Safeguarding Committee (all of whom have received Level 3 training) will assume this role.
- All adults (including supply teachers and volunteers) new to our school, are made aware of the school's policy and procedures for safeguarding, the name and contact details of the DSL, their role and responsibilities under Keeping Children Safe in Education 2025 and the booklet "What to do if You're Worried a Child is Being Abused". They will have these explained, as part of their induction into the school.
- All members of staff must complete safeguarding training every 3 years, attend annual refresher training and partake in any training opportunities arranged or delivered by the DSL. Updates must be cascaded to all staff throughout the year. All new staff will receive safeguarding and child protection training on induction to include online safety and the school's filtering and monitoring system.

Visitors will be:

- Clearly identified with visitor/contractor passes.
 - Met and directed by school staff/representatives.
 - Signed in and out of the school.
 - Given a safeguarding leaflet to read or directed to a poster informing them of how to report a concern.
 - Given restricted access to only specific areas of the school, as appropriate.
 - Escorted by a member of staff/representative as required.
 - Given access to students restricted to the purpose of their visit.
 - Visiting Speakers and professionals are identity checked in addition to the above.
-
- All parents/carers are made aware of the school's responsibilities in regard to child protection procedures through this Policy which is available on our website. Hard copies are also available from the School Office. Further reference is made to this in our prospectus/brochure.
 - All staff are aware that they may refer directly to external agencies if they prefer.
 - Through our **Attendance** Policy, we have in place a robust system for monitoring attendance and will act to address absenteeism (including unexplainable and/or persistent absence) with parents and students promptly to effect change and identify any safeguarding issues arising. We also involve the local authority attendance team at appropriate stages.
 - All children attending our school are required to have a minimum of two identified emergency contacts; this is to support prompt communication in the event of a serious incident or a child missing from school.
 - Parents must inform school if there are any changes to where a student will be living. School has a mandatory duty to inform the local authority, via the First Response Team, if they become aware that a child under the age of 16 years is living with someone other than their parent, stepparent, aunt, uncle or grandparent for a period of more than 28 days. This is defined as being a 'private fostering' arrangement.
 - All staff, parents/carers and children are made aware (via this policy) of the school's escalation process, which can be activated in the event of concerns not being resolved after the first point of

contact. We acknowledge that an individual's safeguarding responsibility does not end once they have informed the DSL of any concerns, although specific details of further actions may be appropriately withheld by the DSL, as information will only be shared on a need to know basis.

- Our **lettings** policy reflects the ongoing responsibility the school has for safeguarding those using the site outside of normal school hours, ensuring the suitability of adults working with children on the school site at any time. This includes the purpose of the letting when for religious or political reasons.
- Any student whose absence is causing concern, where it has not been possible to make contact with a parent/carer, will be reported as a **Child Missing in Education** using the CME Protocol.
- Any absence, without satisfactory explanation, of a student currently subject to a child protection plan, is immediately referred to their social worker.
- Where a parent/carer has expressed their intention to remove a child from school with a view to **educating at home**, the school and other key professionals will work together to coordinate a meeting with parents/carers where possible. Ideally, this would be before a final decision has been made, to ensure the parents/carers have considered what is in the best interests of each child. This is particularly important where a child has SEND, is vulnerable, and/or has a social worker.
- Community users organising activities for children are made aware of, and are required to demonstrate their understanding of, the need for compliance with the school's child protection guidelines and procedures, as part of their use of our facilities.
- The names of the DSL and Deputy DSLs are clearly displayed around the school in appropriate locations, including Reception and the staff room. The DSL will be available during school hours and term time to support safeguarding within our school.

Training

The DSL and DDSs will receive appropriate training carried out every two years in order to:

- understand the assessment process for providing early help and intervention, for example, through locally agreed common and shared assessment processes such as early help assessments;
- have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required.

The same is true of all members of the Safeguarding committee, including the EYFS lead.

The DSL undertakes training to increase understanding of the Prevent legislation and inter agency procedures in this area. They will also be expected to seek out regular updates from Buckinghamshire Safeguarding Children's Partnership, DfE, NSPCC and other reliable sources in order to keep up-to-date.

All staff, including voluntary, ancillary, part-time and temporary, receive induction training that includes safeguarding training and awareness of the Policy, consideration of the Staff Code of Conduct and in particular the Whistleblowing Policy, awareness of who the DSL and deputies are and their responsibilities and the need to read Part one of Keeping Children Safe in Education 2025, or Annex A if they do not work directly with children. The induction training also includes the Behaviour, Rewards and Sanctions Policy, Missing Child Policy, Low-Level Concerns Policy and the Acceptable Use of ICT Policy, in order to encourage consideration of online safety. They are also expected to undertake online safety training as part of their induction. Initially this may take the form of a briefing paper and video training whilst full induction training is organised. The briefing paper consists of the Safeguarding Policy, Code of Conduct for Staff, Whistleblowing Policy, Behaviour, Rewards and Sanctions Policy, Missing Child Policy and the Acceptable Use of ICT Policy, Fire Safety Policy, Low-Level Concerns Policy and Use of Reasonable Force Policy (contained in the Employment Manual).

All staff, including voluntary, ancillary, part-time and temporary, receive general level inter-agency training at least every three years in accordance with Buckinghamshire Safeguarding Children's Partnership procedures. All staff will be required to undertake training to increase awareness of the

dangers of radicalisation and how to identify students at risk. Regular updates (at least annually) will be given at staff meetings and via the Safeguarding section of Firefly. Training will focus on making sure staff understand KCSIE Part one and their obligations under it, as well as focussing on local authority procedures. Staff will be asked, annually, to read Part one of Keeping Children Safe in Education or Annex A if they do not work directly with children. Staff will be reminded of the need to instigate “early help” procedures. Training will be given on how to manage a report on child sexual violence and sexual harassment. All staff and students undertake training in online safety.

Senior students with positions of responsibility are made aware of the Safeguarding Policy and receive basic training on what they should do if they receive a disclosure, and on the main types of abuse and signs of abuse.

The DSL must ensure that they develop effective links with Buckinghamshire Safeguarding Children’s Partnership to ensure that staff are aware of training opportunities and the latest local policies on safeguarding.

Prevention

We recognise school plays a significant part in the prevention of harm to our students by providing effective lines of communication with trusted adults, supportive friends and an ethos of protection.

The school community will provide, across the curriculum, opportunities which equip children with the skills they need to stay safe from both physical and emotional harm and to know to whom they should turn for help. This will include staying safe online.

Confidentiality

We recognise that all matters relating to child protection are confidential.

The Headmistress or DSL will disclose personal information about a student to other members of staff on a need to know basis only. This will be governed by BSCP Information Sharing Protocols.

All staff are aware that they have a professional responsibility to share information with other agencies in order to safeguard children.

Staff will not keep duplicate or personal records of child protection concerns. All information will be reported to the DSL and securely stored only in the designated location within the school, separate from the student records.

We are mindful of the fact that the Data Protection Act 2018 and GDPR do not prevent or limit the sharing of information to keep children safe.

The governors will ensure all relevant staff have due regard to the relevant data protection principles, which allow them to share (and withhold) personal information, as provided for in the Data Protection Act 2018 and the GDPR. This includes:

- Being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information which is sensitive and personal, and should be treated as ‘special category personal data’.
- Understanding that ‘safeguarding of children and individuals at risk’ is a processing condition that allows practitioners to share special category personal data. This includes allowing practitioners to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child in a timely manner but if it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk.
- For schools, not providing students’ personal data where the serious harms test under the legislation is met. For example, in a situation where a child is in a refuge or another form of

emergency accommodation, and the serious harms test is met, they must withhold providing the data in compliance with schools' obligations under the Data Protection Act 2018 and the GDPR. Where in doubt, schools should seek independent legal advice.

Further details on information sharing can be found:

- in Chapter one of [Working Together to Safeguard Children](#), which includes a myth-busting guide to information sharing
- at [Information Sharing: Advice for Practitioners Providing Safeguarding Services to Children, Young People, Parents and Carers](#). The seven golden rules for sharing information will be especially useful
- at [The Information Commissioner's Office \(ICO\)](#), which includes ICO GDPR FAQs and guidance from the department
- in [Data protection: toolkit for schools](#) - Guidance to support schools with data protection activity, including compliance with the GDPR.

Provision is in place for the information to be accessed, in the absence of the DSL, in an emergency.

All staff are aware they cannot promise a child to keep secrets which might compromise the child's safety or well-being or that of another. Staff will, however, reassure the child that information will only be shared with those people who will be able to help them and therefore need to know.

We will always undertake to share our intention to refer a child to Social Care (First Response) with their parents/carers, unless to do so could put the child at greater risk of harm or impede a criminal investigation. If in doubt, we will consult with the ESAS or Social Care on this point.

Multi-agency working

Pipers Corner School knows what the role of schools is, as a relevant agency, within the three safeguarding partner arrangements and as required, will contribute to multi-agency working, in line with the statutory guidance 'Working together to safeguard children 2023: statutory guidance (updated June 2025).

When named as a relevant agency and involved in safeguarding arrangements, we will co-operate alongside other agencies with the published arrangements.

We will contribute to inter-agency plans to offer children support or early help and those children will be supported through child protection plans.

We will allow access for, and work with, children's social care to conduct or consider whether to conduct a section 17 or section 47 assessment.

If following a referral, the situation is not improving for the child, the DSL will follow the escalation process.

Children who need a social worker (Child Protection and Child In Need Plans)

Staff recognise that children may have a social worker due to safeguarding or welfare needs and this can cause them to have barriers with attendance, behaviour, learning and mental health.

The school will share information with a social worker for any child whom they are supporting, to ensure decisions are made in the best interests of the child.

Informed decisions will be made by staff with regards to safeguarding for those children who are being supported by a social worker.

The Virtual School lead the support for this cohort of children and Pipers Corner School will work in partnership with them and the Local Authority to improve outcomes for these children.

Physical intervention/Positive handling

Our policy on physical intervention/positive handling by staff is set out separately, as part of our Rewards, Behaviour and Sanctions Policy. It complies with the Department for Education Guidance, "The Use of Reasonable Force, and Advice for Headteachers, Staff and Governing Bodies" July 2013 as well as the School Standards and Framework Act 1998, Section 131. Use of Reasonable Force, 2013 - this policy states that staff may only use "reasonable force", meaning no more force than is needed, to prevent students from hurting themselves or others, from damaging property, or from causing disorder. It is always unlawful to use force as a punishment.

Headteachers and authorised staff can use such force as is reasonable in the circumstances to conduct a search for the following "prohibited items": knives and weapons, alcohol, illegal drugs, stolen items, cigarettes and tobacco, fireworks, pornographic images, or any article that has been or is likely to be used to commit an offence, cause personal injury or damage property.

If the use of force is necessary, reasonable adjustments for disabled children and children with special educational needs will be made.

Any use of force or restraint will be recorded on CPOMS and the parent/carer will be informed of the incident.

Staff who are likely to need to use physical intervention must be appropriately trained.

We understand that physical intervention of a nature which causes injury or unnecessary distress to a child may be considered under child protection or disciplinary procedures.

Anti-Bullying

Bullying is behaviour by an individual or group, repeated over time, that intentionally hurts another individual or group either physically or emotionally and is often motivated by prejudice against certain groups, for example, on the grounds of race, religion, culture, sex, gender, sexuality, special educational needs and disability, or because a child is adopted or is a carer.

We have an Anti-Bullying Policy and measures in place to prevent and respond to all forms of bullying, which acknowledges that to allow or condone bullying may lead to consideration under child protection procedures.

This policy is available to all staff, parents and carers and students. The policy is written in language that is accessible to students.

Staff, students and parents are made aware of how mobile technologies are increasingly being used to bully children, both in and outside of the school environment. Cyber bullying is therefore referenced within our Anti-Bullying Policy and our Acceptable Use of ICT Policy.

Discriminatory Incidents

In line with the Equality Act 2010, our Equality, Diversity and Inclusion Policy references how prejudice related issues will be dealt with and acknowledges the serious nature of these events and their impact on the individual/group of students involved, including those who may witness the incident. All incidents will be taken seriously and consideration will be given as to whether a multi-agency approach using child protection procedures is required.

Looked After Children

We have a named Designated Teacher (DT), who is also the Designated Safeguarding Lead (DSL). They are responsible for promoting the education achievement and well-being for LAC and previously LAC children, whilst ensuring that any safeguarding concerns are responded to quickly and effectively and are shared with the appropriate agencies.

The Virtual School, who is responsible for overseeing the progress of this group of children, work in partnership with the DT and other agencies, supporting them to promote better outcomes for these children.

Homelessness

We recognise that being homeless or being at risk of becoming homeless presents a real risk to a child's welfare and that some 16 and 17 year olds could be living independently from their parents or guardians. If there are indicators that a family or individual are at risk, we will seek timely support from the local authority.

Modern Slavery and the National referral Mechanism

Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs. If school are concerned that a child is being affected by modern slavery they will refer to the home office guidance for further information on the indicators that someone may be a victim, what support is available to victims and how to refer them to the NRM, whilst also seeking support from the local authority.

[Modern slavery: how to identify and support victims](#)

Health and safety

We recognise the importance of safeguarding pupils throughout the school day. Our **Health and Safety policy** reflects the consideration we give to the protection of our children, both physically and emotionally, within the school environment.

Part of the safeguarding measures we have in place include the safe drop off and collection of pupils at the start and end of the school day, which are clearly communicated to parents and monitored by staff before and after school.

Pupils who leave the site during the school day do so only with the written permission of a parent/carer and are collected by an authorised adult where appropriate. School should be notified by the parents/carers regarding whom they have authorised for this task. All requests to collect a child early are sent to the DSL for approval and monitoring.

In terms of the arrangements in place for the safe handover of pupils from extended provision at the start and end of the school day, pupils arriving before 8.15 am must all go to the Café; those staying for After School Prep are signed in and out; those below Year 10 must be collected in person by an adult.

In the event of a pupil going missing during the course of the school day we will carry out immediate checks to ensure the pupil is not on site, we will then make contact with the pupil's parents/carers and inform the police. This is covered in our Missing Child policy.

When the school is hired out to a 3rd party provider, we ensure that they have appropriate arrangements in place to keep children safe through the sight of their child protection and safer recruitment procedures.

At Pipers Corner School we ensure that we are aware of the content of materials used by any visiting speakers prior to their visit; for example, all PowerPoints are requested in advance so they can be checked.

Drop off and collection of students

Part of the safeguarding measures we have in place include the safe dropping off and collection of students at the start and end of the school day. All parents are asked to deliver/collect their children as below. Parents are expected to inform us via email if there is to be a change in the arrangement of collection for their children.

Section of School	Drop off	Collect from
Pre-Prep	Students should be taken directly to the Pre-Prep Department.	Pre-Prep Department.
Prep	Prep students should be dropped off at the Prep Door. The door is supervised between 0815 and 0830 hours.	Prep students should be collected at the Prep Door. The door is supervised between 1550 and 1610 hours.
Senior School	Senior students should be dropped off in the zone opposite the swimming pool.	Orchard Avenue drop off/collection point – unless the person collecting has parked their car in the Chapel car park, they can wait for their child or walk to the area outside the Theatre.

Students who leave the site during the school day do so only with the written permission of a parent and are collected by an authorised adult where appropriate. School should be notified by the parents regarding whom they have authorised for this task.

Staff who support children during unstructured time such as break and over the lunch period have received training to remain alert to signs of concern or vulnerability, ensuring students feel safe.

In the event of a student going missing during the course of the school day, we will carry out immediate checks to ensure the student is not on-site. Staff will then make contact with the student's parents and inform the Police, following the Missing Child Policy.

After school, at 1600 hours, all students are expected to leave the school site. In Pre-Prep, the end of the school day is at 1530 hours and students will only be released into the care of parents or designated carers who have been previously notified to the school. There is more detailed guidance on Pre-Prep arrangements in the School's Supervision of Student's Policy.

Sixth Form students who have permission to have their car on-site may leave independently from 1600 hours.

Students may stay beyond 1600 hours for a supervised activity or late return from an educational trip or supervised After School Prep (ASP) which runs until 1800 hours. The school should be made aware of these on-going arrangements by parents.

A member of staff is available on reception until 1730 hours.

When the school is hired out to a 3rd party provider, we ensure that they have appropriate arrangements in place to keep children safe through the sight of their child protection and safer recruitment procedures.

At Pipers Corner we ensure that we are aware of the content of materials used by any visiting speakers prior to their visit.

Arrangements in place for the safe handover of students from provision (Breakfast clubs and After School clubs) at the start and end of the school day:

Breakfast Club

Pre-Prep (EYFS and Key Stage 1) Breakfast Club:

If a student is attending Breakfast Club in the Café, they may be dropped off at the entrance to the Arts Centre Cafe between 0730 and 0815 hours to join Breakfast club. On arrival, the member of staff designated to Pre-Prep (EYFS and Key Stage 1) students will record the student's name in the Breakfast Club mark book. At 0815 hours, the member of staff walks the students to the Pre-Prep Department. A standard charge of £3 per day is charged for this provision.

Prep and Senior School:

This free service is available for students to use on an occasional or regular basis. Students in Year 3 upwards may be dropped off at the entrance to the Arts Centre Cafe between 0730 and 0815 hours to join Breakfast club. Please note: For health and safety reasons, students are not allowed in any other areas of the school before 0815 hours. Breakfast items and hot drinks are available to purchase between 0730 and 0800 hours.

After School Prep (ASP)/Crèche

Pre-Prep (EYFS and Key Stage 1):

A Crèche is available in the Pre-Prep Department for students staying after school, which runs until 1800 hours. When a student is collected from Crèche, the parent or designated carer is asked to sign and enter the time of collection next to their child's name. The Crèche registers are kept in the Crèche file. Any children remaining in Crèche after 1800 hours will be supervised by the Senior member of Staff on duty. There is more detailed guidance in the School's Pre-Prep - EYFS and Key Stage 1 Uncollected Child Policy.

Prep and Senior School:

As part of our post-school programme, After School Prep (ASP) for students in Year 3 and above operates from Monday to Friday each week from 1615-1800 hours. All students must be collected by 1800 hours, otherwise late collection charges will apply. Any children remaining in ASP after 1800 hours will be supervised by the Senior member of Staff on duty.

For students in Years 3 – 6, ASP is upstairs in the Founders corridor between 1600 and 1700 hours, and parents should collect their children at the fire escape next to the drop off point opposite the swimming pool. After 1700 hours, students are taken to the Library and parents arriving after that time should collect them from there. Any Prep students attending an after school club who are not collected by the parents when the club finishes are escorted to ASP by the Club Leader.

For students in Years 7 – 11, ASP is in the Library. Parents of students in Year 9 and under should collect their children via the door by DT and the stairs up to the Library.

Sixth Form students can choose to work in the Sixth Form Centre as long as the Head of Sixth Form is present in the Centre. If the Head of Sixth Form is not available, students must work in the Library. They can stay in School until 1800 hours.

Cultural Issues

As a school we are aware of the cultural diversity of the community around us and seek to work sensitively to address the unique culture of our students and their families as they relate to safeguarding and child protection.

As a staff team we are aware of the harm to children that can be caused by practices linked to culture, faith and beliefs. This includes children at risk of harm from abuse linked to a belief in spirit possession on the part of their parent, carer or wider community. We promote awareness through training and access to resources.

Staff will report concerns about abuse linked to culture, faith and beliefs in the same way as other child protection concerns.

We support students, via targeted sessions and delivery through our curriculum, to understand that some aspects of cultural or religious practice and beliefs could cause harm and they should turn to someone they trust or an organisation such as ChildLine for help and support.

We make links with local services, community organisations and faith leaders to provide support and helpful information on what is safe and unsafe practice within the culture/faith, groups of our school community.

At our school we are aware of a range of practices and belief which can be classified as so-called honour-based violence. We include within this female genital mutilation (FGM), forced marriage and breast ironing. Whilst this may be a part of a long-held tradition within communities, we categorise this as child abuse and will act according to our child protection processes to safeguard the student concerned.

We promote awareness through training and access to resources, ensuring that the signs and indicators are known and recognised by staff; any suspicions or concerns for forced marriage are reported to the DSL and the Forced Marriage Bureaux as well as First Response.

Staff understand that, whilst we try always to work in partnership with families, sharing information with a parent or member of the family is not appropriate in some instances where there may be cultural differences of opinion on abuse. Staff will report concerns to the DSL, who will liaise with First Response, the Police or the Forced Marriage Unit and follow advice given regarding protective strategies to safeguard the student.

Use of Photography

We will often use photographs and film to capture achievements, monitor a child's development and help promote successes within our school. We like to have a record of all the wonderful activities our students take part in. Via our website we like to be able to share these events with parents. We are, however, mindful of the safety of our students.

Due consideration will be given to the appropriateness of clothing and posture, and details such as a child's name or age will not be shared unless integral to the use of the image (such as the acceptance of an award), in particular when additional identifiers (i.e. a school or uniform logo) are being shared.

Full information about the School's use of images can be found in the Taking, Storing and Using Images of Students Policy.

Within Pre-Prep (EYFS and Key Stage 1), parents are not permitted to take photographs or video recordings of the students using their own devices. An exception to this rule is at the end of a special event, such as Sports Day, when a child's parent is allowed to take an individual photograph of their own child. This is supervised by staff. Within an EYFS setting there are particular concerns regarding the use of mobile phones and cameras. This is covered in the School's Taking, Storing and Using Images of Students Policy.

Members of staff are only permitted to take photographs and video recordings of students on School devices.

Personal devices owned by members of Pre-Prep staff are stored in the Pre-Prep office when staff are in contact with the students. Specialist members of staff do not have their personal devices with them when they are in contact with the students.

Supporting staff

We recognise that staff working in the school who have become involved with a child who has suffered harm, or appears to be likely to suffer harm, may find the situation stressful and upsetting.

We will support such staff by providing an opportunity to talk through their anxieties with the DSL and to seek further support if necessary. This could be provided by the Headmistress or another trusted colleague, Occupational Health and/or a representative of a professional body or trade union, as appropriate.

In consultation with all staff, we have adopted a **Code of Conduct** for staff at our school and this forms part of staff induction. We understand that staff should have access to advice on the boundaries of appropriate behaviour in order to define and underpin the safe working practices adhered to within our school. We have a **Low-Level Concerns Policy** to support colleagues who have concerns which do not meet the threshold of an allegation.

We recognise that our DSL(s) should have access to support and appropriate workshops, courses or Forums as organised by the County Council.

Safer Recruitment

Pipers Corner follows the guidance as set out in the KCSIE together with the information provided by the Bucks Safeguarding Children Partnership to ensure that all the appropriate checks have been carried out on new staff and volunteers. Details are outlined in the School's Recruitment Policy which is published on our website www.piperscorner.co.uk with a summary provided at Appendix 1 below.

[Safer Employment & the LADO \(Allegations\) - Buckinghamshire Safeguarding Children Partnership](#)

Allegations against staff, supply staff, volunteers and contractors (including Governors)

- The school operates Safe Recruitment practices, including ascertaining the suitability of employed staff and volunteers in regulated activities. Checks will be made through the Disclosure and Barring Service and the National Teachers Council's Prohibition List, as recommended by Buckinghamshire County Council and in line with current legislation.
- We apply the same level of scrutiny to staff employed via an agency, ensuring their identities, qualification and suitability to work safely with children.
- Allegations against members of staff are referred to the Local Authority Designated Officer (LADO). There are procedures in place to make a referral to the Disclosure and Barring Service (DBS), if a person in regulated activity has been dismissed or removed due to safeguarding concerns or would have been had they not resigned. There is a legal requirement for employers to make a referral to the DBS where they think that an individual has engaged in conduct that harmed (or is likely to harm a child) or if the person otherwise poses a risk of harm to the child. The school recognises that this is a legal duty, and a failure to refer when the criteria are met is a criminal offence.
- The guidance set out in the [Disqualification under the Childcare Act 2006](#) outlines the procedures that must be followed.

- We have a Low-Level Concerns Policy to encourage staff to raise concerns that do not meet the threshold for referral and this outlines the role of other agencies where relevant.

All school staff should take care not to place themselves in a vulnerable position with a child. It is always advisable for interviews or work with individual children or parents to be conducted in view of other adults.

Staff should be aware of the school's Code of Conduct.

The Governors will ensure there are procedures in place to manage safeguarding concerns, or allegations against staff (including supply staff and volunteers) that might indicate they would pose a risk of harm to children. Concerns, including allegations that may meet the harms test, should be addressed as set out in Part four of KCSIE 2025.

Part four contains comprehensive guidance covering the two levels of allegations/concern:

1. Allegations that may meet the harms threshold.
2. Allegations/concerns that do not meet the harms threshold – referred to for the purpose of this guidance as 'low-level concerns' and covered in the Low-Level Concerns Policy.

This part of the guidance is about managing cases of allegations that might indicate a person would pose a risk of harm if they continue to work in regular or close contact with children in their present position, or in any capacity with children in a school. This guidance should be followed where it is alleged that anyone working in the school that provides education for children under 18 years of age, including supply teachers, contractors and volunteers has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children. This includes behaviours both inside and outside of school
- In the event of suspicion that a member of staff has been involved in the abuse of a student, this should be reported to the Headmistress. The Headmistress must be kept informed of any allegation against a staff member (current or past).
- In the case where the DSL or a member of the Governing Body is suspected, this should be reported to the Headmistress and the Chair of Governors. The Chair of Governors should be consulted immediately by the Headmistress. If the Chair of Governors is unavailable, or is the suspect, the Nominated Safeguarding Governor should be contacted.
- In the case where the Headmistress is suspected, this should be reported to the Chair of Governors, or Safeguarding Governor without informing the Headmistress. If the Chair of Governors is unavailable, the Nominated Safeguarding Governor should be contacted.
- If the concern involves a potential conflict of interest for the Headmistress (e.g. a relative), the concern should be reported to LADO without informing the Headmistress. The Chair of Governors should consult the DSL. If the Chair of Governors is unavailable, the Nominated Safeguarding Governor should be contacted.
- In the case of the Head/Chair of Governors being suspected, the Nominated Safeguarding Governor should be contacted.
- With regards to supply teachers, in some circumstances schools will have to consider an allegation against an individual not directly employed by them, where its disciplinary procedures do not fully apply, for example, supply teachers provided by an employment agency or business (referred to in this section as 'the agency'). Whilst schools are not the employer of supply teachers, they should ensure allegations are dealt with properly. In no circumstances should a school decide to cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the Local Authority Designated Officer (LADO) to determine a suitable outcome. The Headmistress will decide whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the school, whilst they carry out their investigation. Agencies should be fully involved and co-operate in any enquiries from the LADO, Police and/or children's social services. The school will usually take the lead because agencies do not have direct access to children or other school staff, so they will not be able to collect the facts when an allegation is

made, nor do they have all the relevant information required by the LADO as part of the referral process. They should be advised to contact their trade union representative if they have one, or a colleague, for support. The allegations management meeting which is often arranged by the LADO should address issues such as information sharing, to ensure that any previous concerns or allegations known to the agency are taken into account by the school during the investigation. When using an agency, schools should inform the agency of its process for managing allegations. This should include inviting the agency's human resource manager or equivalent to meetings and keeping them up-to-date with information about its policies.

The Headmistress/Senior Teacher on all such occasions should immediately discuss the content of the allegation with the Local Authority Designated Officer (LADO) or the Governor receiving the allegation. The purpose of an initial discussion is for the LADO and the case manager to consider the nature, content and context of the allegation and agree a course of action.

The Headmistress / Senior Teacher will:

- follow all advice given by the LADO throughout the investigation process, including how to manage the staff member or volunteer against whom the allegation is made, as well as supporting other staff and volunteers within the workplace.
- follow all advice given by the LADO relating to supporting the child or young person making the allegation, as well as other children and young people connected to the organisation.
- ensure feedback is provided to the LADO about the outcome of any internal investigations within your agency.

Suspension of the member of staff against whom an allegation has been made needs careful consideration, and we will consult with the LADO in making this decision, as well as being guided by HR.

If a suspension is made, restrictions will apply to all staff regarding contact whilst suspended, including the use of social media such as Facebook and Twitter.

The school will act to minimise the stress to the employee inherent in the allegations process and they will be given access to external support from the school counsellor, if required. There are legal restrictions on reporting and publishing of allegations against a teacher and every effort will be made to maintain confidentiality and guard against unwanted publicity.

Parents and carers will also be kept informed from the earliest opportunity. They will be reminded about the need to maintain confidentiality about any allegations whilst investigations are ongoing. They will also, if relevant, be informed in confidence of the outcomes of any disciplinary hearing. Students will also be offered support.

The Headmistress will keep the Chair of Governors informed of any suspensions. The details will be kept to a minimum so as not to jeopardise the impartiality of any hearing. All efforts will be made to maintain confidentiality while an allegation is being considered.

Details of any allegations will be recorded unless they are found to be malicious, in which case all records will be removed. All non-malicious allegations will be retained on the confidential staff file until retirement age or for ten years, if that is longer. A copy of the record will be given to the member of staff against whom the allegation is made. Allegations which are false, unsubstantiated or malicious will not be referred to in any reference. If the allegation is substantiated, a review of procedures and practice will be undertaken. Any member of the community who makes an allegation in good faith will be protected. If the allegation is malicious, the Headmistress will consider whether disciplinary action is required or whether to refer the matter to the Police. Records concerning allegations of abuse must be preserved for the term of the Independent Inquiry into Child Sexual Abuse and at least until the accused has reached normal pension age or for ten years from the date of the allegation if it is longer.

Any member of staff whose employment is terminated (or would have been had they not left earlier) as they are considered unsuitable to work with children will be reported to the DBS within one month. There is a legal requirement for employers to make a referral to the DBS where they think that an individual has engaged in conduct that harmed (or is likely to harm a child) or if the person otherwise

poses a risk of harm to the child. If a teacher has been dismissed for misconduct, consideration will also be given as to whether referral should be made to the Teacher Regulation Agency (TRA). The school is mindful of its obligations under the Disqualification under the Childcare Act 2006 and Childcare (Disqualification) and Child Care (Early Years Provision) (Extended Entitlement) (Amendment) Regulations 2018. The HR manager is responsible for gathering the relevant information.

Our lettings agreement for other users requires that the organiser will follow the Buckinghamshire Council procedures for managing allegations against staff and, where necessary, the suspension of adults from school premises.

Transfer of risk

Should an individual staff member or volunteer be involved in child protection, other safeguarding procedures or Police investigations in relation to abuse or neglect, they must inform the Headmistress. In these circumstances, the school will need to assess whether there is any potential for risk of transfer to the workplace and the individual's own work with children or young people.

Whistleblowing

We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so. For this reason, we have a separate Whistleblowing Policy as well as a Low-Level Concerns Policy. Staff are required to familiarise themselves with these documents during their induction period. Attention is drawn to the NSPCC whistleblowing helpline which is available for staff who do not feel able to raise concerns regarding child protection failures internally. Staff can call 0800 028 0285; the line is available from 0800 to 2000 hours, Monday to Friday, or email help@nspcc.org.uk.

All staff should be aware of their duty to raise concerns about unsafe practice or the attitude or actions of colleagues and report their concerns to the Headmistress or Chair of Governors.

Low Level Concerns

At Pipers Corner, all staff know they have a responsibility to share any concerns, no matter how small, about any adults working in school to the Headmistress. Staff are made aware of what a low-level concern might look like using the examples from the KCSIE page 106. All reports will be dealt with effectively and recorded, enabling the school to identify any concerning behaviour and support any adults becoming the subject of false low-level concerns. The School's Low Level Concerns Policy is an integral part of the Code of Conduct which all staff members are asked to read before they join the School, and again annually at the start of the Autumn Term.

Retention of records

When a disclosure of abuse, or an allegation against a member of staff or volunteer, has been made, our school will have a record of this. These records will be maintained in a way that is confidential and secure, in accordance with our Information and Records Retention Policy and Data Protection Legislation.

We are mindful of the fact that the Data Protection Act 2018 and GDPR do not prevent or limit the sharing of information to keep children safe.

There is a statutory requirement for our school to pass any child protection records to the student's next school. This must take place within 5 days of the first day of term, or within 5 days of an in-year transfer. We are required to have an auditable system in place to evidence we have done so. Safeguarding records will be sent separately from the general files using a secure method. No records should be maintained within the school once the files have been transferred. Any transfer of

records will be carried out within the bounds of confidentiality. We are also required to retain a copy of any child protection records we generate until the student reaches the age of 25 years. These records will be stored securely. We have a robust system for reviewing our archived information held. Our files are stored and disposed of in line with GDPR protocols, local and national retention policies.

IICSA concluded in October 2022. The IICSA report recommends that Schools should retain information which relates to allegations of child sexual abuse. We are following this recommendation and this is captured in our Information and Records Retention Policy.

If an allegation is made against a member of staff, a comprehensive, confidential summary of the allegation will be kept on their personnel file. This record will be kept by the school until normal retirement age of the staff member involved, or 10 years after the allegation if longer. This record will include a clear outcome, including when cases have been investigated and found to be without substance. Records concerning allegations of abuse must be preserved for the term of the Independent inquiry into Child Sexual Abuse and at least until the accused has reached normal pension age or for 10 years from the date of the allegation if it is longer.

For cases in which an allegation has been proven to be false, unsubstantiated or malicious, the allegation will not be included in employer references, even if that person has been the subject of repeated allegations.

In the instance of repeated allegations however, our school retains the right in the interest of safeguarding students to retain a record of concern.

We have a system for reviewing our archiving of information held and will only retain information for the agreed time span. All information will thereafter be disposed of via confidential waste management.

Alternative Provision

When a child is accessing an alternative provision, the School remains responsible for the safeguarding of that child.

We will obtain written information from the alternative provider that appropriate safeguarding checks have been carried out on individuals working at their establishment (i.e. those checks that schools would otherwise perform on their own staff).

We will always know where a child is based during school hours. This includes having records of the address of the alternative provider and any subcontracted provision or satellite sites the child may attend. We will regularly review the alternative provision placements.

Alternative Provision DFE statutory guidance can be found here: [Alternative provision - GOV.UK](#) and further DFE statutory guidance on education for children with health needs who cannot attend school can be found here: [Education for children with health needs who cannot attend school](#)

Policy review

The DSL conducts an annual review of the safeguarding provision within the school and also reviews the policy, making any revisions as necessary, liaising with Governors as necessary and ensuring it is in accordance with locally agreed interagency procedure. If the situation demands it, a more regular review will be undertaken.

In conjunction with this and the termly reports from the nominated Safeguarding Governor and the annual review of Safeguarding processes and procedures, the full Governing body will consider any amendments and authorise the revised policy.

The DSL also provides an update of Safeguarding activity to Governors each term via the Head's report. The Governors will review all safeguarding policies and procedures annually.

Appendix 1 – safer recruitment and DBS checks – policy and procedures

Recruitment and selection process

To make sure we recruit suitable people, we will ensure that those involved in the recruitment and employment of staff to work with children have received appropriate safer recruitment training. We have put the following steps in place during our recruitment and selection process to ensure we are committed to safeguarding and promoting the welfare of children.

Advertising

When advertising roles, we will make clear:

- Our school's commitment to safeguarding and promoting the welfare of children
- That safeguarding checks will be undertaken
- The safeguarding requirements and responsibilities of the role, such as the extent to which the role will involve contact with children
- Whether or not the role is exempt from the Rehabilitation of Offenders Act 1974 and the amendments to the Exceptions Order 1975, 2013 and 2020. If the role is exempt, certain spent convictions and cautions are 'protected', so they do not need to be disclosed, and if they are disclosed, we cannot take them into account

Application forms

Our application forms will:

- Include a statement saying that it is an offence to apply for the role if an applicant is barred from engaging in regulated activity relevant to children (where the role involves this type of regulated activity)

Shortlisting

Our shortlisting process will involve at least 2 people and will:

- Consider any inconsistencies and look for gaps in employment and reasons given for them
- Explore all potential concerns

Once we have shortlisted candidates, we will ask shortlisted candidates to:

- Complete a self-declaration of their criminal record or any information that would make them unsuitable to work with children, so that they have the opportunity to share relevant information and discuss it at interview stage. The information we will ask for includes:
- If they have a criminal history
- Whether they are included on the barred list
- Whether they are prohibited from teaching
- Information about any criminal offences committed in any country in line with the law as applicable in England and Wales
- Any relevant overseas information
- Sign a declaration confirming the information they have provided is true

Seeking references and checking employment history

We will endeavour to obtain references before interview, wherever possible. Any concerns raised will be explored further with referees and taken up with the candidate at interview.

When seeking references, we will:

- Not accept open references
- Liaise directly with referees and verify any information contained within references with the referees

- Ensure any references are from the candidate's current employer and completed by a senior person. Where the referee is school based, we will ask for the reference to be confirmed by the headteacher/principal as accurate in respect to disciplinary investigations
- Obtain verification of the candidate's most recent relevant period of employment if they are not currently employed
- Secure a reference from the relevant employer from the last time the candidate worked with children if they are not currently working with children
- Compare the information on the application form with that in the reference and take up any inconsistencies with the candidate
- Resolve any concerns before any appointment is confirmed

Interview and selection

When interviewing candidates, we will:

- Probe any gaps in employment, or where the candidate has changed employment or location frequently, and ask candidates to explain this
- Explore any potential areas of concern to determine the candidate's suitability to work with children
- Record all information considered and decisions made

Pre-appointment vetting checks

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

New staff

All offers of appointment will be conditional until satisfactory completion of the necessary pre-employment checks. When appointing new staff, we will:

- Verify their identity
- Obtain (via the applicant) an enhanced DBS certificate, including barred list information for those who will be engaging in regulated activity (see definition below). We will obtain the certificate before, or as soon as practicable after, appointment, including when using the DBS update service. We will not keep a copy of the certificate for longer than 6 months, but when the copy is destroyed we may still keep a record of the fact that vetting took place, the result of the check and recruitment decision taken
- Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available
- Verify their mental and physical fitness to carry out their work responsibilities
- Verify their right to work in the UK. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards
- Verify their professional qualifications, as appropriate
- Ensure they are not subject to a prohibition order if they are employed to be a teacher
- Carry out further additional checks, as appropriate, on candidates who have lived or worked outside of the UK. Where available, these will include:

For all staff, including teaching positions: criminal records checks for overseas applicants

For teaching positions: obtaining a letter of professional standing from the professional regulating authority in the country where the applicant has worked:

- Check that candidates taking up a management position* are not subject to a prohibition from management (section 128) direction made by the secretary of state

* Management positions are most likely to include, but are not limited to, headteachers, principals and deputy/assistant headteachers.

Regulated activity means a person who will be:

- Responsible, on a regular basis in a school or college, for teaching, training, instructing, caring for or supervising children; or

- Carrying out paid, or unsupervised unpaid, work regularly in a school or college where that work provides an opportunity for contact with children; or
- Engaging in intimate or personal care or overnight activity, even if this happens only once and regardless of whether they are supervised or not

Existing staff

In certain circumstances we will carry out all the relevant checks on existing staff as if the individual was a new member of staff. These circumstances are when:

- There are concerns about an existing member of staff's suitability to work with children; or
- An individual moves from a post that is not regulated activity to one that is; or
- There has been a break in service of 12 weeks or more

We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:

- We believe the individual has engaged in relevant conduct; or
- We believe the individual has received a caution or conviction for a relevant (automatic barring either with or without the right to make representations) offence, under the Safeguarding Vulnerable Groups Act 2006 (Prescribed Criteria and Miscellaneous Provisions) Regulations 2009; or
- We believe the 'harm test' is satisfied in respect of the individual (i.e. they may harm a child or vulnerable adult or put them at risk of harm); and
- The individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

Agency and third-party staff

We will obtain written notification from any agency or third-party organisation that it has carried out the necessary safer recruitment checks that we would otherwise perform. We will also check that the person presenting themselves for work is the same person on whom the checks have been made.

Contractors

We will ensure that any contractor, or any employee of the contractor, who is to work at the school has had the appropriate level of DBS check (this includes contractors who are provided through a PFI or similar contract). This will be:

- An enhanced DBS check with barred list information for contractors engaging in regulated activity
- An enhanced DBS check, not including barred list information, for all other contractors who are not in regulated activity but whose work provides them with an opportunity for regular contact with children

We will obtain the DBS check for self-employed contractors. We will not keep copies of such checks for longer than 6 months. Contractors who have not had any checks will not be allowed to work unsupervised or engage in regulated activity under any circumstances. We will check the identity of all contractors and their staff on arrival at the school.

Trainee/student teachers

Where applicants for initial teacher training are salaried by us, we will ensure that all necessary checks are carried out.

Where trainee teachers are fee-funded, we will obtain written confirmation from the training provider that necessary checks have been carried out and that the trainee has been judged by the provider to be suitable to work with children.

Volunteers

We will:

- Never leave an unchecked volunteer unsupervised or allow them to work in regulated activity

- Obtain an enhanced DBS check with barred list information for all volunteers who are new to working in regulated activity
- Carry out a risk assessment when deciding whether to seek an enhanced DBS check without barred list information for any volunteers not engaging in regulated activity. We will retain a record of this risk assessment

Governors

All **Governors** will have an enhanced DBS check without barred list information. They will have an enhanced DBS check with barred list information if working in regulated activity.

The chair of the board will have their DBS check countersigned by the secretary of state. All proprietors, trustees, local governors and members will also have the following checks:

- A section 128 check (to check prohibition on participation in management under section 128 of the Education and Skills Act 2008).
 - Identity
 - Right to work in the UK
 - Other checks deemed necessary if they have lived or worked outside the UK
- All governors will also have the following checks:

- Identity
- Right to work in the UK
- Other checks deemed necessary if they have lived or worked outside the UK

Staff working in alternative provision settings

Where we place a student with an alternative provision provider, we obtain written confirmation from the provider that they have carried out the appropriate safeguarding checks on individuals working there that we would otherwise perform.

Adults who supervise students on work experience

When organising work experience, we will ensure that policies and procedures are in place to protect children from harm.

We will also consider whether it is necessary for barred list checks to be carried out on the individuals who supervise a student under 16 on work experience. This will depend on the specific circumstances of the work experience, including the nature of the supervision, the frequency of the activity being supervised, and whether the work is regulated activity.

Students staying with host families

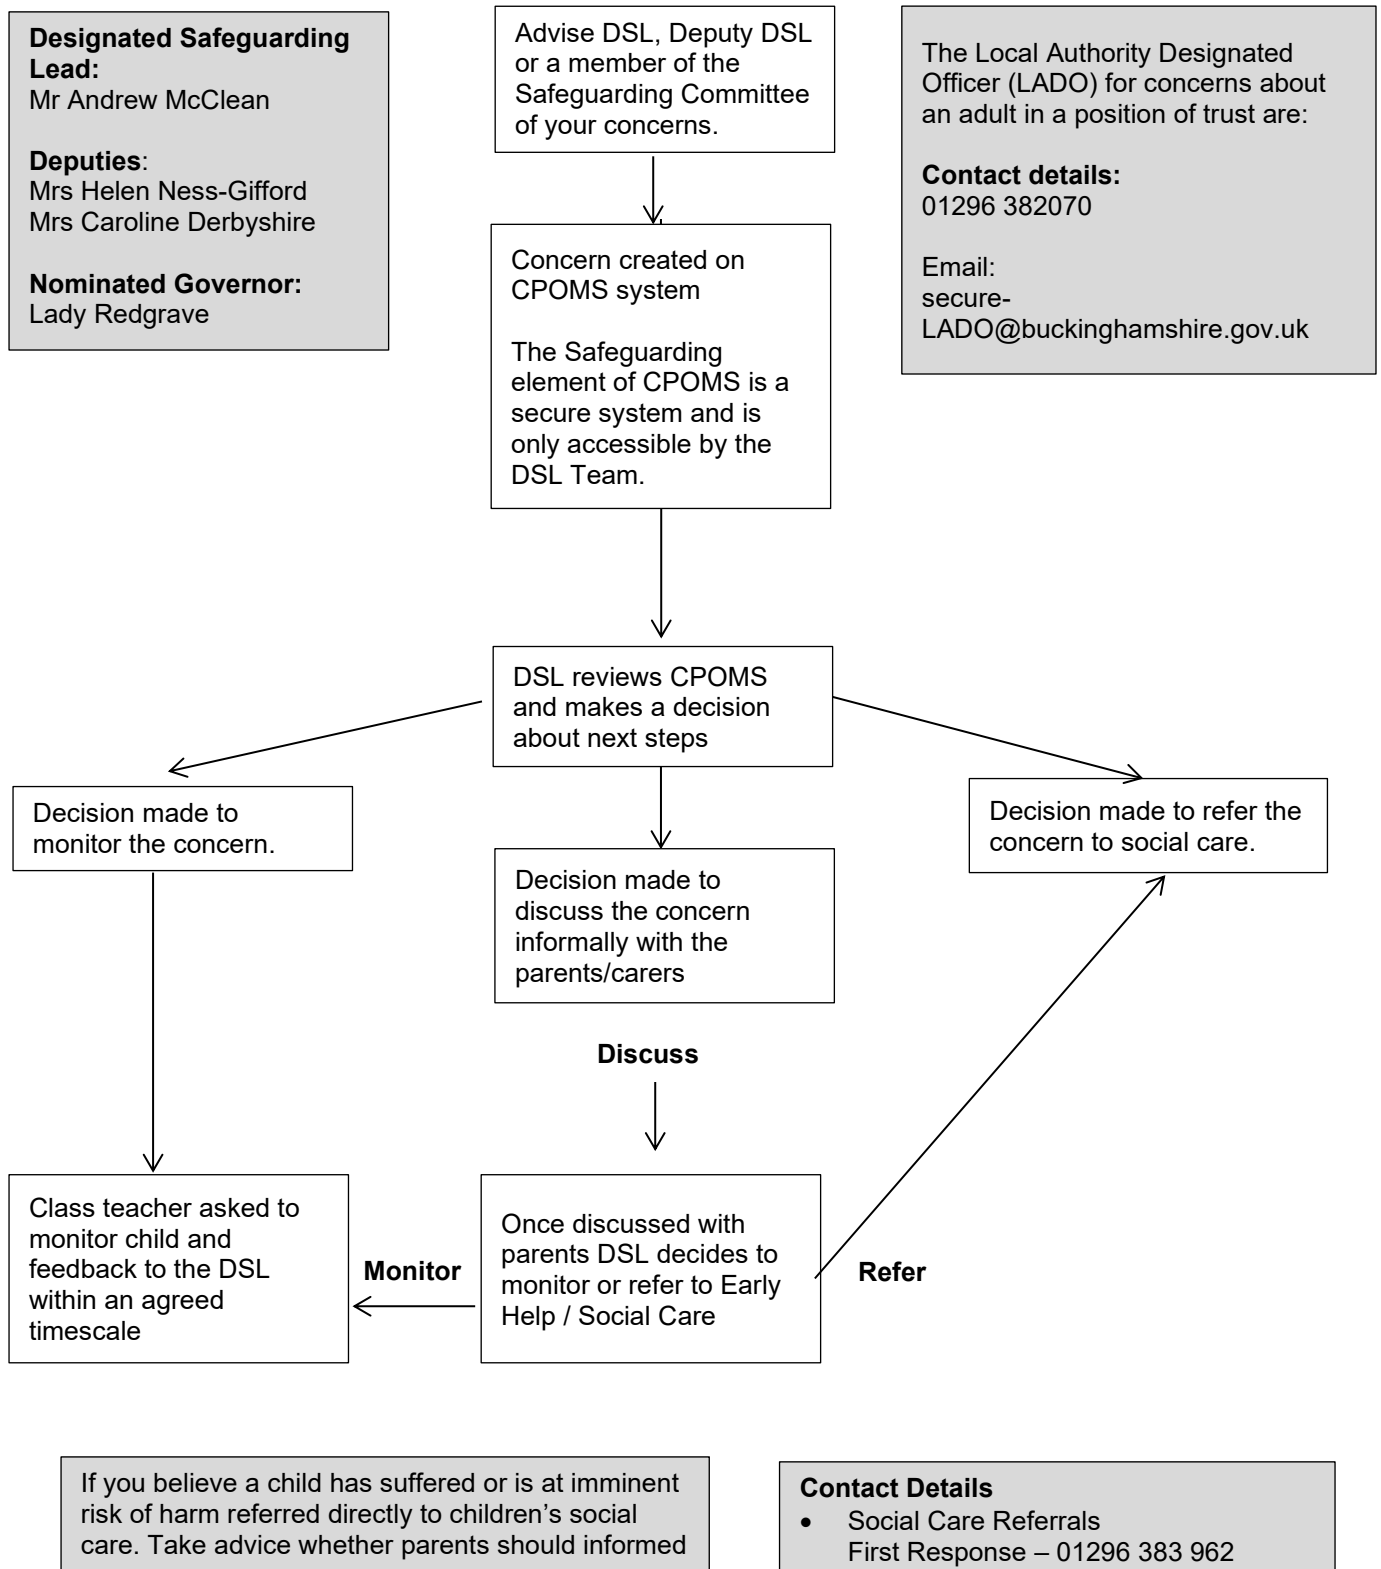

Where the School makes arrangements for students to be provided with care and accommodation by a host family to which they are not related (for example, during a foreign exchange visit), we will request enhanced DBS checks with barred list information on those people.

Where the School is organising such hosting arrangements overseas and host families cannot be checked in the same way, we will work with our partner schools abroad to ensure that similar assurances are undertaken prior to the visit.

Recruitment Policy

The School has published its Recruitment Policy on the website www.piperscorner.co.uk. This policy is referenced extensively in our recruitment literature and candidates are asked to read the policy before applying for a position at the School.

Appendix 2: Flow chart for raising Safeguarding concerns about a child. If the student is in Early Years that discussion should initially be with the EYFS safeguarding lead

Appendix 3: Briefing points Child-on-Child Abuse for Staff

Sources of information are VVV managing allegations webinar and Farrah Child-on-child abuse toolkit.

What is child-on-child abuse?

For these purposes, child-on-child abuse is any form of physical, sexual, emotional and financial abuse, and coercive control, exercised between children, and within children's relationships (both intimate and nonintimate), friendships and wider peer associations.

Child-on-child abuse can take various forms, including (but not limited to):

- serious bullying (including cyberbullying),
- relationship abuse,
- domestic violence and abuse
- child sexual exploitation,
- youth and serious youth violence
- harmful sexual behaviour,⁴² and/or prejudice-based violence including, but not limited to, gender-based violence.

Examples of online child-on-child abuse would include sexting, online abuse, child-on-child grooming, the distribution of youth involved sexualised content, and harassment.

How can a child who is being abused by their peers be identified?

Signs that a child may be suffering from child-on-child abuse can also overlap with those indicating other types of abuse and can include:

- failing to attend school, disengaging from classes or struggling to carry out school related tasks to the standard ordinarily expected,
- physical injuries,
- experiencing difficulties with mental health and/or emotional well-being,
- becoming withdrawn and/or shy; experiencing headaches, stomach aches, anxiety and/or panic attacks; suffering from nightmares or lack of sleep or sleeping too much
- broader changes in behaviour including alcohol or substance misuse,
- changes in appearance and/or starting to act in a way that is not appropriate for the child's age, and
- abusive behaviour towards others.

The above list is by no means exhaustive, and the presence of one or more of these signs does not necessarily indicate abuse. The behaviour that children present with will depend on their particular circumstances. Rather than checking behaviour against a list, staff should be alert to behaviour that might cause concerns, to think about what the behaviour might signify, to encourage children to share with them any underlying reasons for their behaviour and, where appropriate, to engage with their parents so that the cause(s) of their behaviour can be investigated. Where a child exhibits any behaviour that is out of character or abnormal for his/her age, staff should always consider whether an underlying concern is contributing to their behaviour (for example, whether the child is being harmed or abused by their peers) and, if so, what the concern is and how the child can be supported going forwards.

The power dynamic that can exist between children is also very important when identifying and responding to their behaviour: in all cases of child-on-child abuse a power imbalance will exist within the relationship. This inequality will not necessarily be the result of an age gap between the child responsible for the abuse and the child being abused. It may, for example, be the result of their relative social or economic status. Equally, while children who abuse others may have power over those who they are abusing, they may be simultaneously powerless to others.

Are some children particularly vulnerable to abusing or being abused by their peers?

Any child can be vulnerable to child-on-child abuse due to the strength of peer influence during adolescence, and staff should be alert to signs of such abuse amongst all children. Individual and situational factors can increase a child's vulnerability to abuse by their peers. For example, an image

of a child could be shared, following which they could become more vulnerable to child-on-child abuse due to how others now perceive them, regardless of any characteristics which may be inherent in them and/or their family. Peer group dynamics can also play an important role in determining a child's vulnerability to such abuse. For example, children who are more likely to follow others and/or who are socially isolated from their peers may be more vulnerable to child-on-child abuse. Children who are questioning or exploring their sexuality may also be particularly vulnerable to abuse by their peers. Research suggests that child-on-child abuse may affect boys differently from girls, and that this difference may result from societal norms (particularly around power, control and the way in which femininity and masculinity are constructed) rather than biological make-up. Barriers to disclosure will also be different.

Children with Special Educational Needs and/or Disabilities (SEND) are three times more likely to be abused than their peers without SEND, and additional barriers can sometimes exist when recognising abuse in children with SEND. These can include: – assumptions that indicators of possible abuse such as behaviour, mood and injury relate to a child's disability without further exploration, – the potential for children with SEND to be disproportionately impacted by behaviours such as bullying and harassment, without outwardly showing any signs, – communication barriers and difficulties, and – overcoming these barriers.

Some children may be more likely to experience child-on-child abuse than others as a result of certain characteristics such as sexual orientation, ethnicity, race or religious beliefs.

What to do if someone discloses child-on-child abuse to you?

Listening effectively

Do not:

- Be judgmental
- Launch into an investigation or promise that the school will investigate
- Promise confidentiality.

Do:

- Take it seriously
- Listen carefully
- Ask open questions
- Offer support to all those involved
- Explain what action you will and will not take
- Record it carefully on CPOMS and mark it child-on-child abuse
- Report it to the DSL copying in the Head of Year

The DSL and Head of Year will then triage the situation considering:

- Nature of allegation?
- Criminal offence?
- Sexual violence/harassment?
- One off or pattern?
- Violence/coercion?
- Impact on victim/their wishes?
- Past or present student(s)?
- Risk to others?
- School policies engaged?

The DSL will consider if external agencies should be involved and take the relevant action.

If the issue involves sexual harassment or abuse they will follow advice in [DfE guidance](#) on sexual harassment and sexual violence in schools

If the issue involves sharing nudes and semi-nude images will follow advice in [DfE guidance](#) on this:

They will usually inform parents at this stage of the child who has raised the concern and usually the child who has caused the concern.

We will take a safeguarding approach to all children in our care who are involved in concerns about, and/or allegations of, child-on-child abuse, including those who have allegedly experienced such abuse, and those who have allegedly been responsible for it, in addition to any sanctioning work that may also be required for the latter. Therefore, it may be helpful to see individuals involved as children first – who may have been victimised and/or displayed harmful behaviours, rather than using the term ‘victim’ and/or ‘perpetrator’.

The DSL/Head of Year will undertake a risk assessment using the risk assessment for student welfare policy and draw up a safety plan.

The risk assessment should consider:

- The nature and level of risk of the different variants of child-on-child abuse within the school;
- Any specific characteristics that might affect their vulnerability to child-on-child abuse greater such as, for example, gender, age, learning difficulties, special educational needs and/or disabilities, sexual orientation and/or religious belief; and
- The various sociocultural contexts to which those students are associated including, for example, their peer group (both within and outside the school), family, the school environment, their experience(s) of crime and/or victimisation in the local community, and their online identities - which may impact on their behaviour and engagement in school.

Safety plans

The School will always carry out a safety plan in respect of:

- Any child who is alleged to have behaved in a way that is considered to be abusive or violent;
- Any child who has reportedly been abused or affected by the alleged abusive or violent behaviour by another child; or
- Any child who may be at risk due to the alleged abusive or violent behaviour by another child as deemed appropriate by the DSL.

Where it is alleged that a child has behaved in a way that is considered to be inappropriate or problematic (as opposed to abusive or violent), the DSL will use their professional judgment – based on the particular concern(s) and/or allegation(s) raised, and the needs and circumstances of the individual child/children in question – to determine whether (as explained above) it would be appropriate to contact children’s social care, and to carry out a safety plan.

Careful judgment and consideration are required as to whether alleged behaviour which might be judged to be inappropriate by an adult might actually be harmful to another child. Consultation is recommended with children’s social care if there is any doubt about this. Careful consideration should also be given to a range of factors, including the context, severity of the alleged behaviour, impact of the alleged behaviour on others, risk to others, and whether there are any patterns of behaviour occurring.

Where other children have been identified as witnesses to alleged abuse or violence, consideration should also be given by the DSL to whether there might be any risks to those children, and whether a safety plan would be appropriate in relation to any risks presenting to them.

Any such plan that is put in place should be as clear and user friendly as possible. It will be shared with the student it is for and usually their parents.

It will consider the following factors

- Ongoing dialogue
- Trusted adult(s)
- Safe place
- Counselling
- Adjustments to ‘normal’ arrangements

- Support with communications/deleting content
- Signposting student/parents to external services
- Sanctions

The DSL/Head of Year will usually investigate the situation if no other agencies are involved. This would involve speaking to staff and students who were witnesses to the incident. Possibly viewing evidence e.g. from social media site or CCTV. The student would be consulted about what they think would be a desirable outcome. They would then work out how to best move the situation forward positively. This could be a restorative meeting or changes to the safety plan or disciplinary action. This would be communicated to the students concerned and their parents.

Disciplinary action

The School may wish to consider whether disciplinary action may be appropriate for any child/children involved. However, if there are Police proceedings underway, or there could be, it is critical that the School works in partnership with the Police and/or children's social care. Where a matter is not of interest to the Police and/or children's social care, the School may still need to consider what is the most appropriate action to take to ensure positive behaviour management. Disciplinary action may sometimes be appropriate, including to:

- (a) ensure that the child/children take(s) responsibility for and realise(s) the seriousness of their behaviour;
- (b) demonstrate to the child/children and others that child-on-child abuse can never be tolerated; and
- (c) ensure the safety and well-being of other children.

However, these considerations must be balanced against any Police investigations, the child's/children's own potential unmet needs, and any action or intervention planned regarding safeguarding concerns. Before deciding on appropriate action, the School will always consider its duty to safeguard all children in its care from harm; the underlying reasons for a child's behaviour; any unmet needs, or harm or abuse suffered by the child; the risk that the child may pose to other children; and the severity of the child-on-child abuse and the causes of it. The School will, where appropriate, consider the potential benefit, as well as challenge, of using managed moves or exclusion as a response, and not as an intervention, recognizing that even if this is ultimately deemed to be necessary, some of the measures referred to in this policy may still be required. For example, action may still need to be taken by the School in relation to other students who have been involved with and/or affected by child-on-child abuse. Exclusion will only be considered as a last resort and only where necessary to ensure the safety and well-being of the other children in the School. In the event of any managed move, consideration must be given to sharing information with the receiving school regarding the child-on-child abuse in order to allow best protection of children in the new school. Disciplinary interventions alone are rarely able to solve issues of child-on-child abuse, and the School will always consider the wider actions that may need to be taken, and any lessons that may need to be learnt going forwards, as set out above and below.

Communication and information sharing

When responding to a concern or allegation of child-on-child abuse, schools should consider carefully, in consultation with children's social care, the Police and other relevant agencies (where they are involved), how to share information about the concern or allegation with the student(s) affected, their parents, staff, and other students and individuals.

When considering whether and how to share information, schools should consider a number of factors, in consultation with the above (as relevant), and in accordance with the HM Government advice on Information Sharing (updated in July 2018).

These factors include (but are not limited to) ensuring as far as possible that the information sharing:

- (a) does not prejudice any investigation(s);
- (b) keeps individuals' personal sensitive data confidential unless it is not appropriate to do so (for example, where a school needs to share information in order to enable individuals to safeguard and support a child);
- (c) shares information about a child with that child's parents unless there are legitimate reasons not to do so; and

(d) keeps individuals updated on developments where possible and appropriate.

Data protection and record keeping

Data protection practices relating to child-on-child abuse should be in line with the school's data protection policies and notices. By the same token, the school's policies and notices need to reflect and allow sufficiently for safeguarding practices. This includes setting out clearly to parents and students what these practices are, and why they are needed, in a privacy notice. Working together to safeguard children 2023: statutory guidance (updated June 2025) sets out to correct common myths about the laws of privacy, data protection and confidentiality; fears that can hamper effective keeping and sharing of records. The bottom line is that, if there are legitimate safeguarding concerns about a child, then data protection law will allow schools and professionals to record, share and retain even the most sensitive personal data as necessary to support their policies (even when it is not feasible to obtain consent). What is important is that the records that schools do keep relating to concerns or allegations of child-on-child abuse are accurate, clearly describe the nature of the alleged behaviour without using euphemisms and contain adequate information for the purpose.

These records – including in behaviour incident logs, individual safety plans, and records of any conversations with children, their parents, staff, and external agencies – are likely to contain highly impactful, sensitive personal data about children. Schools should take care when creating them and ensure that they are accessed on a need-to-know basis only by trained and appropriate staff. Those with the responsibility for doing so must bear in mind that any records may need to be provided to the children involved and/or their parents in the future.

All notes and related communications should always be concise, factual and objective, and focused on what is necessary for the safeguarding purpose. The language used should always be appropriate and professional.

Appendix 4: Key points on child-on-child abuse to share with students

What is child-on-child abuse?

Child-on-child abuse can take, many forms such as:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying)
- abuse in intimate personal relationships between peers
- physical abuse which can include hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- sexual violence and sexual harassment.
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be stand alone or part of a broader pattern of abuse
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)

Where does it take place?

Child-on-child abuse can take place outside or inside School but we have duty to protect a child who has been harmed or is at risk of harm wherever that abuse may have taken place. It can also take place online

Commitment from the school

All child-on-child abuse is unacceptable and will be taken seriously.

Reporting a concern

Students can report such abuse to any trusted adult. Tutors, Head of Year, School Counsellors, the Head of Wellbeing, subject teachers, Senior Leadership Team are all people who can help as can parents. Each child has key pastoral staff such as their form tutor and Head of Year as well as access to the school Counsellor.

External help

Notices are in classrooms but there is a DfE helpline and Childline numbers in all classrooms
A new helpline number: 0800 136 663, run by the NSPCC, to supports potential victims of sexual harassment and abuse in education settings

If you want to report a concern anonymously you can do so by putting a note in one of the suggestion boxes, located in the Lady Bucks Foyer and in the Library, which are opened by the Deputy Head Pastoral.

What will happen if you report child-on-child abuse?

You will be listened to and given the opportunity to review any notes that are taken.

Who will be told?

The teacher you report to will let the DSL know of the issue
Your Tutor and Head of year will be made aware so they can support you
We will normally let your parents/carers know that you have raised a concern

The DSL/Head of Year will undertake a risk assessment to put measures in place to try to reduce the risks to your welfare and assess whether this is a safeguarding concern that has to be reported to social care or if a crime is committed the Police. You would know if this was going to happen. If you

did not want this reported, we may still have to report it, but we would make sure your views were expressed.

The school will take your concern seriously and investigate them if no other agencies are involved and this is the correct thing to do. They would avoid saying you had shared your concern but would need to talk to other staff/students, but you would be kept informed of this. After they had conducted an investigation, they would talk to you about the outcome. This may involve sanctions for those involved or a meeting to try to move things forward if everyone concerned thought this might be helpful.
